# 1. LIVING AND NON-LIVING THINGS

## WORKSHEET – 1

1. **Correct answer: B (Humans, Animals, Plants)**
   Living things show characteristics such as growth, respiration, reproduction, movement, and response to stimuli.
2. **Correct answer: C**
   Bird.
3. **Correct answer: A (To stay alive)**
   Living things need air to breathe. Breathing helps them stay alive and healthy.
4. **Correct answer: C (Reproduction)**
   Living things can have babies or young ones that are like them. This is called reproduction.
5. **Correct answer: B (A plant getting taller)**
   Living things grow bigger as they get older. A plant getting taller shows growth.
6. **Correct answer: B (Things that are not alive)**
   Non-living things are things that are not alive. They do not grow, breathe, or have babies.
7. **Correct answer: C (Chair)**
   A chair is not alive. It does not grow, breathe, or move on its own.
8. **Correct answer: B (air)**
   Living things need air to breathe and stay alive.
9. **Correct answer: C (young ones)**
   Living things have babies or young ones that are like them.
10. **Correct answer: D**

## WORKSHEET – 2

1. **Correct answer: C (Sun)**
   The Sun is made by nature. It is not made by people.
2. **Correct answer: A (Sun, River, Mountain)**
   The Sun, rivers, and mountains are all found in nature.
3. **Correct answer: C (Rock)**
   A rock is a natural thing. People do not make rocks.
4. **Correct answer: B (Sun)**
   The Sun gives us light during the daytime.
5. **Correct answer: B (Natural things)**
   Things that come from nature are called natural things.
6. **Correct answer: C (River – Natural)**
   A river is made by nature, so it is a natural thing.
7. **Correct answer: B (They are made by nature)**
   Natural things are made by nature, not by people.
8. **Correct answer: C (Water is natural)**
   Water is found in nature and is not made by humans.
9. **Correct answer: B (made by nature)**
   Natural things come from nature.
10. **Correct answer: D (Chair)**
    The Sun, Moon, and River are natural things. A chair is made by humans.

# COMPETITIVE CORNER

## SINGLE CORRECT OPTION TYPE

**1. Correct answer: A (Dog)**
A dog is a living thing. It can move on its own and grow bigger with time.

**2. Correct answer: A (Chair, Book, Stone)**
A chair, book, and stone are all non-living things. They do not grow or breathe.

**3. Correct answer: A (Dog and Plant)**
A dog and a plant are living things because they grow and need food, water, and air.

**4. Correct answer: A (Dog)**
A dog is alive and can walk on its own.

**5. Correct answer: B (Because it cannot breathe or have babies)**
A car can move, but it cannot breathe, grow, or produce young ones, so it is non-living.

**6. Correct answer: B (A girl taking a deep breath of fresh air)**
Breathing is a characteristic of living things. A girl is a living thing and breathes.

**7. Correct answer: C (The toy block)**
A toy block never grows, so it is a non-living thing.

**8. Correct answer: C (The Moon)**
The Moon is a natural thing that gives us light at night by reflecting sunlight.

**9. Correct answer: C (The snake)**
A snake is a living thing and can move on its own.

**10. Correct answer: A (Because the boy needs food and water to grow)**
Living things need food and water to grow and stay alive. The boy is a living thing.

## ONE OR MORE THAN ONE CORRECT OPTION TYPE

**11. Correct answer: A, B and C (Cat, Tree and Dog)**
A cat, tree, and dog are living things. They can grow and reproduce. A chair is non-living.

**12. Correct answer: A, B and D (Chair, Pen and Book)**
A chair, pen, and book are man-made things that help people in daily life. A flower is a natural thing.

**13. Correct answer: B and D (Plant and Dog)**
Plants and dogs are living things. They need air to live. A stone and a toy do not need air.

**14. Correct answer: A, B and C (Dog, Bird and Fish)**
A dog, bird, and fish are living things. They move and eat food to get energy. A ball is non-living.

**15. Correct answer: C (Chair)**
The Sun, Moon, and River are natural things. A chair is a man-made thing, so it is the odd one out.

## ASSERTION REASON TYPE

**16. Correct answer: A**
Living things need air, food, and water to stay alive. These help them get energy, grow, and carry out life processes.

**17. Correct answer: C**
A plant grows but cannot move from one place to another. Although movement is a characteristic of living things, not all living things move from place to place like animals do. Plants remain fixed in one place.

**MATRIX MATCHING TYPE**

**18. a – S, b – R, c – Q, d – S**

A dog and a tree are living things. A chair is made by humans. The Sun gives us light.

**19. a – Q, b – P, c – R, d – S**

A cat is a living thing. A table is non-living. The Moon is a natural thing. A pen is a man-made thing.

**COMPREHENSION TYPE**

**PASSAGE-1**

**20. Correct answer: B (Plants and birds)**

Plants and birds are living things because they grow and need food, water, and air.

**21. Correct answer: C (They grow and need food, water, and air)**

Plants are living things because they grow and need food, water, and air to live.

**22. Correct answer: C (Stone)**

A stone is a non-living thing. It does not grow, breathe, or reproduce.

**PASSAGE-2**

**23. Correct answer: B (Lions and monkeys)**

Lions and monkeys are living things because they eat food and move around.

**24. Correct answer: C (Bench)**

A bench is a non-living thing. It does not move, grow, or need food.

**25. Correct answer: A (Grow and move)**

Living things can grow and move. They also need food, water, and air to live.

## PREVIOUS YEAR QUESTIONS

**1. Correct answer: D (Neem tree)**

A neem tree is a living thing. It cannot move from one place to another, but it can make its own food using sunlight.

**2. Correct answer: C (Money Plant – Pillow)**

A money plant is a living thing, and a pillow is a man-made non-living thing.

**3. Correct answer: C**

**4. Correct answer: D (P, Q, R, S)**

Living things need air, sunlight, food, and water to stay alive and grow

**5. Correct answer: B**

# 2. PLANTS

## WORKSHEET – 1

**1. Correct answer: C (Tree)**
A tree is a big and tall plant with a strong stem called a trunk.

**2. Correct answer: B (Shrub)**
A rose plant is a shrub. It is small and bushy with many branches.

**3. Correct answer: D (Pea Plant)**
A pea plant is a climber. It needs support to grow upward.

**4. Correct answer: C (Creeper)**
A watermelon plant grows along the ground, so it is a creeper.

**5. Correct answer: D (Food)**
Plants give us food such as fruits, vegetables, and grains.

**6. Correct answer: A (Shrub)**
A shrub is a bushy plant with many branches growing near the ground.

**7. Correct answer: D (Climber)**
A climber grows upward with the help of support.

**8. Correct answer: B (Herb)**
Coriander and mint are small plants with soft stems, so they are herbs.

**9. Correct answer: D (Tree)**
A mango plant is a tree. It is tall and has a strong trunk.

**10. Correct answer: B (Pumpkin)**
A pumpkin plant spreads on the ground, so it is a creeper.

## WORKSHEET – 2

**1. Correct answer: C (Root)**
The root grows under the soil and helps the plant absorb water and minerals.

**2. Correct answer: B (Stand straight)**
The stem supports the plant and helps it stand straight.

**3. Correct answer: B (Flowers)**
Fruits develop from flowers after pollination.

**4. Correct answer: D (Apple)**
An apple is a fruit. Carrot is a root, spinach is a leaf, and potato is a stem.

**5. Correct answer: D (Cereal)**
Rice is a cereal crop and is an important food grain.

**6. Correct answer: C**

**7. Correct answer: C (Furniture)**
Wood from trees is used to make furniture such as tables, chairs, and cupboards.

**8. Correct answer: A (Medicines)**
Many plants are used to make medicines.

**9. Correct answer: A (Seeds)**
Flowers help in the formation of seeds.

**10. Correct answer: B (Oxygen)**
Plants give us oxygen, which we need for breathing.

## COMPETITIVE CORNER

### SINGLE CORRECT OPTION TYPE

**1. Correct answer: B (A flower)**
A bud grows into a flower.

**2. Correct answer: B (Gram/Dal)**
Gram (dal) is a pulse that helps us grow strong and healthy.

**3. Correct answer: B (Pumpkin plant)**
A pumpkin plant has a weak stem and grows along the ground, so it is a creeper.

**4. Correct answer: B (Rubber)**
Rubber is used to make tyres, balloons, and many other useful items.

**5. Correct answer: B (Cashew nut)**
Cashew nut is a healthy nut that we eat.

**6. Correct answer: C (Wood)**
Wood from trees is used to make tables, chairs, and other furniture.

**7. Correct answer: A (Wheat)**
Wheat is a cereal that gives us energy.

**8. Correct answer: D (Flower)**
The flower is the colorful part of a plant that attracts bees and butterflies.

**9. Correct answer: B (Spinach)**
Spinach is a leafy vegetable, and we eat its leaves.

**10. Correct answer: C (Beans)**
Coffee is made from the beans of the coffee plant.

## ONE OR MORE THAN ONE CORRECT OPTION TYPE

**11. Correct answer: A, B and C (Root, Stem and Leaf)**
Root, stem, and leaf are parts of a plant. A chair is not a part of a plant.

**12. Correct answer: A, B and D (Carrot, Potato and Spinach)**
Carrot, potato, and spinach are vegetables. Apple is a fruit.

**13. Correct answer: A, B and D (Grow on ground, Have weak stems and Spread on soil)**
Creepers have weak stems and grow along the ground. They spread on the soil.

**14. Correct answer: A, B and C**
(Plants are living things, Plants give us food, Plants make air clean)
Plants are living things. They provide food and help keep the air clean. They are not non-living.

**15. Correct answer: A, B and C (Rice, Wheat and Gram)**
Rice and wheat are cereals, and gram is a pulse. Apple is a fruit.

## ASSERTION REASON TYPE

**16. Correct answer: D**
Fruits do not grow from roots; they grow from flowers. Fruits protect the seeds inside them.

**17. Correct answer: A**
Leaves make food for the plant. They use sunlight, air, and water to prepare food for the plant

## MATRIX MATCHING TYPE

18. a – R (Tree – Tall and strong plant)
b – S (Shrub – Bushy plant)
c – P (Herb – Small soft plant)
d – Q (Creeper – Grow on ground)
Trees are tall and strong. Shrubs are bushy plants. Herbs are small plants with soft stems. Creepers grow along the ground.

19. a – R (Rice – Cereal)
b – Q (Cotton – Cloth)
c – S (Pepper – Spice)
d – P (Wood – Furniture)
Rice is a cereal. Cotton is used to make cloth. Pepper is a spice. Wood is used to make furniture.

**COMPREHENSION TYPE**

**PASSAGE-1**

**20. Correct answer: C (Big and strong)**
Trees are big and strong plants with thick trunks.

**21. Correct answer: B (Support)**
Climbers have weak stems and need support to grow upward.

**22. Correct answer: B (Ground)**
Creepers have weak stems and grow along the ground**.**

**PASSAGE-2**

**23. Correct answer: B (Cereals)**
Rice and wheat are cereals that give us energy.

**24. Correct answer: B (Spices)**
Pepper and turmeric are spices used to add flavor to food.

**25. Correct answer: B (Clothes)**
Cotton is used to make clothes and other fabric product.

## PREVIOUS YEAR QUESTIONS

**1. Correct answer: B (Lotus)**
Lotus is a water plant that grows in ponds and lakes.

**2. Correct answer: D (Barley)**
Gram is a pulse, and barley is a cereal.

**3. Correct answer: A (Root)**
The root holds the plant firmly in the soil and absorbs water and nutrients from the soil

**4. Correct answer: A**

**5. Correct answer: C (Cumin)**
Gram, kidney beans, and soybeans are pulses. Cumin is a spice, so it is the odd one out.

# 3. ANIMALS

## WORKSHEET – 1

**1. Correct answer: C (Dog)**
A dog is a domestic animal that lives with humans.

**2. Correct answer: B (Den)**
A lion lives in a den.

**3. Correct answer: A (Dog, Cat, Cow)**
Dog, cat, and cow are all domestic animals.

**4. Correct answer: C (Cow – Water)**
A cow does not live in water. It usually lives in a shed.

**5. Correct answer: C (Lion)**
A lion is a wild animal that lives in forests and grasslands.

**6. Correct answer: A (Fish, Whale)**
Fish and whales are water animals.

**7. Correct answer: B (Crow)**
A crow is a bird.

**8. Correct answer: B**

**9. Correct answer: C (Bird)**
Many birds build their own nests in trees.

**10. Correct answer: D (Horse)**
A horse usually lives in a stable, which is made by humans

## WORKSHEET – 2

**1. Correct answer: A (Rabbit)**
A rabbit eats carrots, grass, and other plant parts.

**2. Correct answer: C (Tadpole)**
A tadpole is the baby of a frog.

**3. Correct answer: C (Water)**
Animals need water when they are thirsty.

**4. Correct answer: B (Cow)**
A cow is a plant-eating animal and commonly eats grass.

**5. Correct answer: B (Cow)**
A cow eats only plants such as grass and leaves.

**6. Correct answer: B (Live and grow)**
Animals need food to live, grow, and stay healthy.

**7. Correct answer: C (Meat)**
A lion is a flesh-eating animal and eats meat.

**8. Correct answer: C (Keep them clean)**
Keeping animals clean helps them stay healthy.

**9. Correct answer: C (Both plants and animals)**
If a cow eats grains, insects it is eating both plant and animal matter.

**10. Correct answer: B (Lion)**
A cub is the baby of a lion.

## COMPETITIVE CORNER

### SINGLE CORRECT OPTION TYPE

**1. Correct answer: C (Goat)**
A goat is a domestic animal that lives with humans and is cared for by them.

**2. Correct answer: B (Parrot)**
A parrot is a bird.

**3. Correct answer: B (Rest and stay safe)**
Animals use their homes for shelter, rest, and protection.

**4. Correct answer: D (Horse)**
A horse lives in a stable.

**5. Correct answer: C (Plant-eating animals)**
Animals that eat plants are called plant-eating animals (herbivores).

**6. Correct answer: A (Snake)**
A snake often lives in a hole in the ground.

**7. Correct answer: C (Keeping them dirty)**
Keeping animals dirty is not good care. Animals should be kept clean and healthy.

**8. Correct answer: B (Hen)**
A chick grows into a hen (or rooster).

**9. Correct answer: C (Goat – Leaves)**
Goats eat leaves, grass, and other plant parts.

**10. Correct answer: B (Frog – Tadpole)**
A tadpole is the baby stage of a frog.

**ONE OR MORE THAN ONE CORRECT OPTION TYPE**

**11. Correct answer: A, B and D ((1), (2) and (4))**
Dogs and horses live on land, and fish live in water. A lion does not live in water.

**12. Correct answer: A, B and C (Lion, Snake and Rabbit)**
Lions live in dens, snakes in holes, and rabbits in burrows. These are natural homes.

**13. Correct answer: A and B (Lion and Tiger)**
Lions and tigers are meat-eating animals.

**14. Correct answer: A, B and D**
Talking softly, Giving shelter and Feeding them
These actions help animals stay safe, healthy, and happy.

**15. Correct answer: A, B and C (Cub, Chick and Tadpole)**
A cub, chick, and tadpole are baby animals. A cow is an adult animal.

**ASSERTION REASON TYPE**

**16. Correct answer: A**
Birds can fly because they have wings and feathers that help them fly.

**17. Correct answer: B**
A puppy is a baby dog. Baby animals are small and need care, but this does not explain why a puppy is a baby dog.

**MATRIX MATCHING TYPE**

18. a – Q (Dog – Puppy)
b – R (Cat – Kitten)
c – P (Cow – Calf)
d – S (Lion – Cub)
A puppy is a baby dog, a kitten is a baby cat, a calf is a baby cow, and a cub is a baby lion.

19. a – Q (Dog – Domestic animal)
b – R (Lion – Wild animal)
c – P (Fish – Water animal)
d – S (Parrot – Bird)

**COMPREHENSION TYPE**

**PASSAGE-1**

20. **Correct answer: B (Puppy)**
A puppy is a baby dog.

21. **Correct answer: D (Kitten)**
A kitten is a baby cat.

22. **Correct answer: C (Cub)**
A cub is a baby lion.

**PASSAGE-2**

**23. Correct answer: C (Take them to a doctor)**
If animals are sick, we should take them to a doctor so they can get better.

**24. Correct answer: B (Friends)**
Animals are our friends and should be treated kindly.

**25. Correct answer: C (Healthy)**
Keeping animals clean helps them stay healthy.

## Previous Year Questions

**1. Correct answer: C**

**2. Correct answer: A (Hen – Sty)**

**3. Correct answer: A**

**4. Correct answer: B**

**5. Correct answer: B**

# 4. Basic Needs For Human

## Worksheet – 1

1. **Answer: C) Breakfast**
   Breakfast is the first meal of the day eaten in the morning to give energy for the day.
2. **Answer: B) Apple**
   Apples are eaten raw, without cooking, and keep vitamins fresh. Rice, dal, and roti are usually cooked before eating.
3. **Answer: B) To remove germs and dirt**
   Raw foods can have dust, dirt, or germs, so washing them keeps us healthy.
4. **Answer: B) destroy harmful germs**
   Cooking kills harmful germs and makes food safe, soft, tasty, and easy to digest.
5. **Answer: A) Rice**
   Cereals are grains like rice, wheat, corn, and oats. Carrot, apple, and tomato are vegetables or fruits.
6. **Answer: B) Roti and bread**
   Wheat is a cereal used to make roti, bread, and other food items.
7. **Answer: A) Lentils**
   Pulses are seeds of legumes like lentils, chickpeas, and kidney beans used to make dal and soups.
8. **Answer: A) Paneer**
   Dairy products come from milk, like paneer, cheese, curd, and butter.
9. **Answer: B) Spices**
   Spices are used to add flavor, color, and taste to food, like turmeric, pepper, and cumin.
10. **Answer: B) Eggs**
    Animal products come from animals, such as eggs, meat, and milk. Spinach, wheat, and corn are plant-based.

## Worksheet – 2

1. **Answer: C) River**
   Rivers are natural sources of water formed by nature. Taps, dams, and handpumps are man-made sources.
2. **Answer: A) Rain**
   Rain provides most of the freshwater on Earth, replenishing rivers, lakes, and groundwater
3. **Answer: C) Well**
   Wells are dug by humans to reach underground water. Oceans, rivers, and rain are natural sources.
4. **Answer: C) Salty**
   Oceans and seas are made of salty water, not fresh water.
5. **Answer: B) keep our bodies clean and germ-free**
   Bathing with water removes dirt and germs from our body, keeping us healthy.
6. **Answer: B) family members live together with love**
   A home provides shelter, safety, and a place for family members to live together.
7. **Answer: C) Both I and II are correct**
   Rain is the main natural source of water, and handpumps are man-made devices to get groundwater.

**8. Answer: C) Living room**
The living room is the place for family gatherings and entertainment like watching TV.

**9. Answer: B) Cooking – Kitchen**
Cooking is done in the kitchen, eating is done in the dining room, and watching TV is usually in the living room.

**10. Answer: C) heat, cold, rain, and wind**
A home provides protection from all kinds of weather, including heat, cold, rain, and wind.

## Worksheet – 3

**1. Answer: B) They absorb sweat and keep us cool**
Cotton clothes are light, breathable, and allow air circulation, keeping the body cool in summer.

**2. Answer: C) Woollen clothes**
Woollen clothes trap heat and keep the body warm in cold weather.

**3. Answer: B) Sheep**
Wool is primarily obtained from sheep, although some types also come from goats (like cashmere).

**4. Answer: B) Raincoats and umbrellas**
Raincoats and umbrellas are waterproof and keep us dry in the rainy season.

**5. Answer: D) Wool – Summer**
Wool is warm and used in winter, not in summer.

**6. Answer: C) Woollen sweater**
Woollen sweaters keep the body warm in cold weather.

**7. Answer: B) Summer – Cotton clothes, Winter – Woollen clothes, Rainy – Raincoat**
Each clothing type is matched to the season it is most suitable for.

**8. Answer: C) They trap heat and make the body feel hot**
Wool keeps the body warm, so it is uncomfortable in hot weather.

**9. Answer: C) Winter clothes**
Woollen clothes are warm and are used in winter.

**10. Answer: C) Raincoat – Winter**
Raincoats are used in the rainy season, not winter, so it is the odd-one-out.

## Competitive Corner

**1. Answer: B) Lunch**
Explanation: Lunch is the midday meal, usually eaten in the afternoon.

**2. Answer: C) Rice**
Explanation: Rice is usually boiled or cooked before eating. Banana, cucumber, and apple are eaten raw.

**3. Answer: B) To keep our bodies hydrated and healthy**
Explanation: Drinking water keeps the body hydrated and maintains good health.

**4. Answer: C) Bedroom – Watching television**
Explanation: Watching TV usually happens in the living room, not in the bedroom.

**5. Answer: C) Oceans and Seas**
Explanation: Oceans and seas contain mostly salty water. Lakes, rivers, and ponds contain fresh water.

**6. Answer: C) Sleeping**
Sleeping does not require water, while drinking, cooking, and washing clothes do.

**7.** **Answer: B) 2 → 3 → 1**
Summer → Cotton T-shirt, Rainy → Raincoat, Winter → Woollen sweater.

**8.** **Answer: C) Fruits (cotton bolls)**
Cotton comes from the fluffy fibers inside the cotton bolls of the plant.

**9.** **Answer: B) Sheep**
Wool for making woollen clothes is mainly obtained from sheep.

**10.** **Answer: A) Umbrella**
Umbrellas are used to stay dry in the rainy season.

## One Or More Than One Option Correct Type

**11.** **Answer: A) Umbrella, B) Raincoat**
Umbrellas and raincoats are waterproof items used in the rainy season to stay dry. Woollen caps and sweaters are for keeping warm, not for rain protection.

**12.** **Answer: A) Breakfast, B) Lunch, D) Dinner**
Breakfast, lunch, and dinner are the three main meals. Snacks are additional small meals, not main meals.

**13.** **Answer: A) Dal, B) Rice, C) Potato (boiled or roasted)**
Dal, rice, and potatoes are usually cooked before eating. Bananas are eaten raw.

**14.** **Answer: A) Washing clothes, B) Mopping floors, C) Washing utensils**
Drinking is a use of water for health, not for cleaning. Washing clothes, mopping floors, and washing utensils all require water for cleaning.

## Assertion and reason type:

**15.** **Answer: A**
Rainy season clothes like raincoats are made from waterproof material. This material directly helps us stay dry in heavy rain, so the reason correctly explains the assertion.

**16.** **Answer: B**
Wool is indeed obtained from sheep (A is true), and wool does keep the body warm (R is true). However, the reason explains the use of wool, not the source of wool, so R is not the explanation of A.

## Matrix match type

**17.** P. Cooked Food → b) cooked food is prepared using heat, easy to digest
Cooked food is heated before eating, which makes it soft, tasty, and easy to digest.
Q. Raw Food → d) Raw food is eaten without heating and keeps nutrients fresh
Raw food is eaten as it is, without cooking, and retains natural vitamins and minerals.
R. Rice → a) Rice is a cooked food, can be boiled
Rice is usually cooked by boiling before eating.
S. Apple → c) Apple is raw food, eaten without cooking
Apples are eaten raw and do not require cooking.

**18.** P. River → b) River is fresh water that flows in basins
Rivers are natural sources of fresh water that flow through valleys and basins.
Q. Pond → a) Pond is smaller than lakes, often found in villages/parks
Explanation: Ponds are natural or artificial water bodies smaller than lakes, usually in villages, gardens, or parks.

R. Well → d) Well is a man-made source to get underground water
Wells are dug by humans to access groundwater and are man-made sources of water.
S. Tap → c) Tap brings water into houses
Taps are fixtures connected to pipes that supply water to homes from storage tanks, wells, or municipal sources.

### Comprehension type:

**Passage – 1**

**19. Answer: B) Cotton T-shirt**
Cotton clothes are light, breathable, and allow air circulation, keeping the body cool in hot summer weather. Woollen sweaters, jackets, and raincoats are not suitable for summer.

**20. Answer: B) To keep the body warm**
Woollen clothes trap heat and protect the body from cold temperatures, making them ideal for winter.

**21. Answer: A) Umbrella, C) Raincoat**
Umbrellas and raincoats are waterproof and keep us dry in the rainy season. Cotton shirts and woollen scarves do not protect against rain.

**Passage-2**

**22. Answer: A) Drinking, B) Cooking, D) Bathing**
Water is essential for drinking, cooking, and bathing. Sleeping does not require water.

**23. Answer: A) Protection from weather, B) Safety from dangers, D) Living together as a family**
A home protects us from heat, cold, rain, and wind, keeps us safe from dangers, and provides a space for family members to live together. Storing water is not a primary purpose.

**24. Answer: A) Living room – Watching television, B) Kitchen – Cooking food, D) Bedroom – Sleeping**
Living room is for family gatherings and watching TV, kitchen is for cooking, and bedroom is for sleeping. Dining room is for eating, not sleeping.

# 5. Good Habits and Safety Rules

## Worksheet – 1

1. **Answer: A** (Washing hands)
   Washing hands is a good hygiene habit that keeps us clean and prevents diseases. The other options show unhealthy habits.
2. **Answer: B**. In the dustbin
   Throwing garbage in a dustbin keeps our surroundings clean and safe.
3. **Answer: B. Keeping surroundings clean**
   The children are sweeping and cleaning the floor, which shows a good habit of keeping the environment clean.
4. **Answer: B. Twice a day**
   Brushing in the morning and before bed keeps teeth clean and prevents cavities.
5. **Answer: B. Brushing teeth**
   The child is holding a toothbrush and cleaning their teeth.
6. **Answer: B. To remove germs**
   Bathing helps keep our body clean and removes dirt and germs.
7. **Answer: B. Taking bath daily**
   The child is bathing, which is a healthy and hygienic habit.
8. **Answer: B. To keep it neat**
   Combing helps keep hair tidy and well-maintained.
9. **Answer: B. Washing hands with soap**
   Washing hands with soap removes dirt and germs, keeping us healthy.

## Worksheet – 2

1. **Answer: C) Dangerous action**
   The child is handling an electric plug carelessly, which can cause electric shock.
2. **Answer: D) Ball**
   Knife, scissors, and blade are sharp objects; a ball is not.
3. **Answer: B) Safe crossing**
   The children are crossing at a zebra crossing with proper signal—this is safe behavior.
4. **Answer: B) Run behind bus**
   Running behind a bus is risky and can lead to accidents.
5. **Answer: C) Sit quietly**
   Sitting quietly ensures safety and does not disturb others.
6. **Answer: B) With adult help**
   Sharp objects can cause injury, so adult supervision is important.
7. **Answer: B) They may bite**
   Animals may react aggressively if teased.
8. **Answer: C) Walk slowly**
   Walking calmly prevents accidents and maintains discipline.
9. **Answer: C) Green signal**
   Green signal indicates it is safe to cross.
10. **Answer: B) Immediate help given before a doctor arrives**
    First aid is the quick care given to someone injured before medical help comes.

# Competitive Corner

## Single Correct Option Type

**1. Answer: B. Stay healthy**
Clean clothes prevent germs and keep us healthy.

**2. Answer: B. Zebra**
Zebra crossings are safe places to cross roads.

**3. Answer: B. To remove germs**
Dirt and germs collect under long nails

**4. Answer: B. Cutting nails**
The picture shows a child using a nail cutter.

**5. Answer: B. Zebra crossing**
It is the safest place for pedestrians.

**6. Answer: B. Line**
Standing in a line avoids pushing and ensures safety.

**7. Answer: D. Playground slide**
Others are related to road safety.

**8. Answer: B. Balanced diet**
A balanced diet provides all necessary nutrients.

**9. Answer: C. Fruits, vegetables, grains, milk**
It includes all essential food groups.

**10. Answer: B) Garbage**
A dustbin is meant for throwing waste materials like wrappers, leftovers, and other unwanted items. Fresh fruits, books, and important things should not be thrown away because they are useful.

**11. Answer: D. All of these**
Handwashing is important in all these situations.

**12. Answer: B.** Read in good light
Proper lighting protects our eyes from strain.

## ONE OR MORE THAN CORRECT OPTION TYPE

**13. Correct answers: A, B, C**
A) Cleaning and bandaging a wound – Helps prevent infection and protects the injury.
B) Calling an adult for help – Ensures proper care and safety.
C) Giving water to a dizzy person – Can help them feel better (if conscious).

**14. Correct answers: A, B, C**
A) Eating balanced diet – Gives proper nutrition.
B) Playing and exercising – Keeps body active and strong.
C) Taking proper sleep – Helps body rest and grow.

**15. Correct answers: A, B, C**
A) Touching switches with wet hands – Risk of electric shock.
B) Playing with sharp objects – Can cause injuries.
C) Playing with fire – Very dangerous, may cause burns.

**16. Correct answers: A, B, D**
A) Crossing at zebra crossing – Safe way to cross roads.
B) Walking on footpath – Keeps you away from vehicles.
D) Holding an elder's hand – Ensures safety, especially for children.

**COMPREHENSION TYPE**

**17.** **Correct Answer: B)** To avoid accidents and stay safe – Passage clearly mentioned "Safety rules help us avoid accidents and stay protected"

**18.** **Correct Answer: D)** Everywhere – Passage mentions "at home, school, on the road, and in playgrounds " This implies everywhere.

**19.** **Correct Answer: C)** Being careful and helping others – passage mentions "habits like being careful, obeying instructions, and helping others ensures everyone's safety."

**ASSERTION AND REASON TYPE**

**20.** **Correct answer: A)**
Both A and R are true, and R is the correct explanation of A: because this habit directly prevents the accumulation of waste in living areas, which in turn stops the growth and spread of germs, helping us stay healthy

**21.** **Correct answer: A)** Both A and R are true, and R is the correct explanation of A. Because closing taps tightly is done specifically to prevent water wastage and to ensure the floor or area remains dry and safe.

**Matching Type Questions**

**22.** A-S, B-R, C-Q, D-P

**23.** **Here are the correct ticks for SAFE (✓) and UNSAFE (✗) actions:**

Standing in a line — ✓ (Safe)
Running behind bus — ✗ (Unsafe)
Holding railing on stairs — ✓ (Safe)
Touching switch with wet hands — ✗ (Unsafe)
Crossing at zebra crossing — ✓ (Safe)
Fighting in playground — ✗ (Unsafe)
Holding elder's hand — ✓ (Safe)
Playing with fire — ✗ (Unsafe)

## Previous year questions

**1.** **Answer is A) Eating junk food everyday**
Eating junk food every day is unhealthy and can harm our body. The other options are all good habits that help us stay healthy and hygienic.

**2.** **Answer is D) We should not play with sharp objects.**
Playing with sharp objects like knives or scissors is dangerous and can cause injuries. The other options describe unsafe behaviors, so they are incorrect.

**3.** **Answer is B) B, N, D, G → BANDAGE**
(fits perfectly and is found in a first aid box)

**4.** **Answer: D) All of these**
All the options describe safe and responsible behavior—waiting for your turn, following rules, and asking for help if someone is hurt are all important.

**5.** **Answer is C) Plug points**
Water conducts electricity, so touching plug points with wet hands can cause an electric shock.

# 6. Air and Water

## Worksheet – 1

**1. Correct Answer: B**

X shows wind blowing trees (natural moving air). Y shows a fan (man-made moving air). Z shows a storm with strong winds (powerful moving air). All three represent air in motion (wind) in different forms.

**2. Correct Answer: B**

(i) is incorrect because sound needs a medium (like air) to travel; it cannot travel in a vacuum. (ii) is correct because a breeze is indeed a gentle or light form of moving air.

**3. Correct Answer: C**

A (balloons), B (football), and D (tyre) all contain air inside them, so their weight is partly due to the air filled in them. C (deflated balloons) do not contain air, so their weight is not due to air.

**4. Correct Answer: B**

An inflated ring becomes bigger because air fills it and occupies space, showing that air takes up space.

**5. Correct Answer: A**

Although sound can travel through solids, liquids, and gases, in a general everyday scenario, we usually hear sound through air (for example, talking, listening, etc.). Hence, air is the most common medium that helps sound travel from one place to another.

**6. Correct Answer: B**

When the bottle is sealed, air inside it occupies space and pushes outward (pressure), making it hard to crush. When the cap is opened, air can escape, so there is less internal pressure, and the bottle gets crushed easily.

**7. Correct Answer: A**

During a storm, strong winds, heavy rain, and lightning can damage buildings like houses.

Clouds, mountains, and the Sun are natural features and are not typically damaged in the same way.

## Worksheet – 2

**1. Correct Answer: B**

Bursting firecrackers releases smoke and harmful gases, which pollute the air.

**2. Correct Answer: A**

(i) is correct because fire needs oxygen (from air) to keep burning.

**3. Correct Answer: A**

A sailboat moves using wind (moving air).

**4. Correct Answer: A**

Flat tires mean there is less air inside, so the bicycle becomes hard to ride. Adding air makes the tires firm again and easier to use.

**5. Correct Answer: C**

Factory areas often have smoke and pollutants, so fresh air is usually not found there. Parks, open fields, and gardens generally have cleaner air.

**6. Correct Answer: B**

In a closed box with no holes, fresh air cannot enter, so the rabbit does not get enough oxygen. This makes it uncomfortable.

**7. Correct Answer: A**
Windmills need steady and strong wind to rotate and generate electricity. Without wind, they cannot work effectively.

## Worksheet – 3

**1. Correct Answer: B**
Even if water looks clean, it may contain germs and harmful microorganisms. Boiling the water kills these germs, making it safe to drink.

**2. Correct Answer: D**
(car driving) does not directly use water.

**3. Correct Answer: A**
(i) is correct because all living things need water to survive.

**4. Correct Answer: B**
Not all water is safe to drink because it may contain germs or harmful substances, even if it looks clean.

**5. Correct Answer: B**
Option B shows turning off the tap while brushing, which saves water.

**6. Correct Answer: B**
Option B shows a water body filled with garbage, which is an example of water pollution.

**7. Correct Answer: A**
Water helps to cool down and extinguish the fire, stopping it from spreading.

## Competitive Corner

### Single Option Correct Type

**1. Correct Answer: A**
**(i)** Correct – Water is essential for drinking and keeping the body healthy.
**(ii)** Correct – Water is used for cleaning and removing germs.

**2. Correct Answer: A**
The jumbled word "LOPLUTION" rearranges to "Pollution", which means water getting dirty due to harmful substances.

**3. Correct Answer: B**
Filtering means removing impurities from water, often using a filter or purification system.

**4. Correct Answer: B**
Closing the tap while scrubbing prevents unnecessary flow of water, helping to conserve water.

**5. Correct Answer: D**
(i) Rain is the main natural source that recharges groundwater. (iii) Hand pump draws water from underground sources (groundwater).

### One or More than One Correct Option Type

**6. Correct Answers: A, B, C**
person speaking - Sound travels through air to reach our ears.
Clapping hands – Produces sound that travels through air.
Ringing a bell – Sound is carried by air
Closed book lying silently – No sound is produced

**7. Correct Answer: A, B, D**
Sailboat - Moves using wind (air).
Kite - Flies due to moving air.

Helicopter - Its movement depends on air (rotor blades push air).
Bicycle - Does not depend on air; it moves by pedaling.

**8. Correct Answer: A, B, C**
Ice – Solid form of water
Water vapour – Gaseous form
Liquid water – Liquid form
Smoke – Not a form of water

**9. Correct Answer: A, B, C, D**
All the given options (bottle, bucket, water tank, clay pot) are used to store water.

## Assertion and Reason Type

**10. Correct Answer: A**
Air helps sound travel. Without air (or any medium), sound cannot travel. The reason correctly explains the assertion.

**11. Correct Answer: D**
Clear water is not always safe to drink. Water may contain invisible germs.

## Matrix Matching Type

**12. Correct Answer: a-Q, b-S, c-R, d-P**
(a) shows rain which comes from the sky.
(b) shows a bottle used for storing water.
(c) shows a water body found on the ground.
(d) shows a hand pump which draws water from underground.

**13. Correct Answer: a-R, b-S, c-P, d-Q**
Lungs - Air is needed for breathing
Sailboat - Moves using wind
Windmill - Uses air to generate electricity
Inflatable duck - Air fills objects up

**Comprehension Type**

**Passage – I**

**14. Correct Answer: C**
A covered container keeps water safe from dust, germs, and insects, making it suitable for drinking.

**15. Correct Answer: A**
A clay pot is commonly used at home to store and keep water cool and fresh.

**16. Correct Answer: B**
Covering water prevents contamination, keeping it clean and safe to use.

**Passage – II**

**17. Correct Answer: C**
Parks with trees have cleaner and fresher air due to more oxygen and less pollution.

**18. Correct Answer: B**
Air pollution means air becoming dirty due to smoke, gases, and harmful substances.

**19. Correct Answer: D**
Sunshine does not cause air pollution, while trees if cut/burned and vehicle smoke contribute to pollution.

## Previous Year Questions

**1. Correct Answer: C**
The picture shows a windmill, which uses wind energy to move blades and help in tasks like grinding or pumping water related to soil/land use.

**2. Correct Answer: A**
A strong wind that causes destruction is called a storm.

**3. Correct Answer: A**
The jumbled word ETSMA can be rearranged to form "STEAM", which is the gaseous form of water.

**4. Correct Answer: D**
Air helps in blowing balloons, burning (oxygen), and drying clothes.

**5. Correct Answer: C**
A kite flies due to moving air (wind).

**6. Correct Answer: C**
The balance tilts down on the side of Y, which means Y has more weight than X.

**7. Correct Answer: A**
Clothes dry faster when the air is dry because evaporation happens quickly.

**8. Correct Answer: D**
All shown activities contribute to dirtying the air (air pollution).

**9. Correct Answer: D**
Both smoke and dust are present in air and can make it dirty.

**10. Correct Answer: A**
Wind helps to run a windmill and water is used to wash utensils.

# 7. Weather and The sky

**Worksheet-1**

1. **Answer: A**
   This picture shows children with an umbrella and rain falling, so it is a rainy day.
2. **Answer is B (Umbrella)**
   When there are dark clouds and thunder, it may rain, so carrying an umbrella is best.
3. **Answer is B (Hot)**
   Feeling very hot and sweating means the weather is hot**.**
4. **Answer is D (Sunglasses)**
   Sweater, scarf, and gloves are for cold weather, but sunglasses are not, so they are different.
5. **Answer is B (Sweater)**
   On a cold day, we wear a sweater to keep warm.
6. **Answer is B (To stay cool)**
   Light cotton clothes help keep our body cool in summer**.**
7. **Answer is C (Cold)**
   A snowman can only be made in cold weather with snow.
8. **Answer: B) Wear woollen clothes**
   Woollen clothes keep the body warm and help stop shivering.
9. **Answer: C) Cold**
   People wear woollen clothes in cold weather to stay warm.
10. **Answer is B) Sweater**
    Sweaters are worn in winter to protect from cold.

## Worksheet – 2

1. **Answer is C) Night**
   Stars are visible in the sky at night.
2. **Answer is A) Rainbow**
   Rainbows usually appear after rain when sunlight passes through water droplets.
3. **Answer is C) NOOM (Moon)**
   Unscrambled, “NOOM” becomes Moon, which shines by reflecting sunlight.
4. **Answer is A**
   Option A shows a half-moon (half of the Moon is visible).
5. **Answer is B) Moon**
   The Moon is round, changes shape (phases), and reflects sunlight.
6. **Answer is B) Astronaut**
   The person shown is someone who travels to space.
7. **Answer is B) Neil Armstrong**
   He was the first person to walk on the Moon.
8. **Answer is B) Night**
   Stars are usually seen at night.
9. **Answer is C) Land and water**
   Earth has both land and water.
10. **Answer is B) It reflects sunlight**
    The Moon does not have its own light; it reflects sunlight.

# Practice Corner

## Single Correct Option Type

**1. Answer is C) Rocket**
Astronauts travel to the Moon using a spacecraft/rocket.

**2. Answer is C) Astronaut**
"TANORUTSA" unscrambles to ASTRONAUT**.**

**3. Answer is A) Circle**
The Sun looks like a big yellow ball (circle) of fire.

**4. Answer is A) Raincoat**
The picture shows rainy weather, so a raincoat is used.

**5. Answer is A) Summer**
The object is an air conditioner, which is used in summer.

**6. Answer is C) 3**
Based on primary chapters: Summer, Winter, Rainy (Monsoon).

**7. Answer is A) Summer –** Weather is very hot and people use AC for cooling.
The item shown (cooler/AC) is used in hot weather.

**8. Answer is A) Big in size**
The star (star image) is big. It is bright and far, so other options are incorrect.

**9. Answer is B) Weather**
Weather can change within a day.

**10. Answer is D) Any time**
Weather can change to rain at any time of the day.

## ONE OR MORE THAN CORRECT OPTION TYPE

**11. Answer:** A, B, C
The true statements about a rainy day are **A, B, and C**.
**A) Water falls from clouds:** By definition, a rainy day is when water falls from clouds as rain.
**B) Sky is dark and full of clouds:** During rainy weather, the sky typically becomes dark and is covered with clouds.
**C) People use umbrellas or raincoats:** To stay dry and avoid getting wet, people use protective gear like umbrellas, raincoats, or gumboots.
**D) Sun shines strongly:** This is **incorrect** because a day when the sun shines strongly is described as a **sunny day**, not a rainy day.

**12. Answer:** A, B, C
the true statements about the winter season are **A, B, and C**.
**A) Weather is cool or cold:** Winter is the coldest season and the weather is described as cool and sometimes foggy.
**B) People wear sweaters and jackets:** Because it is the coldest season, people wear warm clothes such as sweaters, jackets, and caps to stay warm.
**C) People drink warm liquids:** To keep warm during the winter, people drink warm liquids and may sit in the sunlight or use heaters.
**D) People use fans to stay cool:** This is **incorrect** because fans, coolers, and air conditioners are used to stay cool during the **summer season**, which is the hottest season.

**13.** **Answer:** A, B, D
the correct options for what can be seen in the daytime sky are **A, B, and D**.
**A) Sun:** It is the brightest object seen during the day.
**B) Clouds:** These are visible in the daytime sky.
**D) Blue sky:** During the day, the sky appears bright and blue.
**C) Stars:** These are **incorrect** because while stars are always there, they cannot be seen during the day due to the Sun's very bright light.

**14.** **Answer:** A, B, D
the true statements about stars are **A, B, and D**.
**A) They have their own light:** Stars are bright objects that possess their own light.
**B) They twinkle in the sky:** Stars are known to twinkle when seen in the sky.
**D) They look small because they are far away:** Although they are very big in size, they appear as tiny dots because they are very far from Earth.
**C) They are seen in daytime clearly:** This is **incorrect**. We cannot see stars during the daytime because the light from the Sun is too bright.

**ASSERTION AND REASON TYPE**

**15.** The correct answer is **D) A is false, R is true**.
**Assertion (A) is false:** we cannot see stars during the daytime.
**Reason (R) is true:** The reason we cannot see them during the day is that the Sun's light is very bright.

**16.** The correct answer is **A) Both A and R are true**.
**Assertion (A) is true:** People use umbrellas during the rainy season to avoid getting wet.
**Reason (R) is true:** A rainy day is defined as a day when water falls from clouds as rain.

**Matching Type Questions**

**17.** Sunny Day → Sun shines strongly → 1 – c
Rainy Day → Water falls from clouds → 2 – b
Windy Day → Air moves fast → 3 – a
Winter Season → People wear warm clothes → 4 – d

**18.** Sun → Gives heat and light → 1 – b
Moon → Reflects sunlight → 2 – a
Stars → Twinkle in the sky → 3 – c
Earth → Planet where we live → 4 – d

**COMPREHENSION TYPE**

**Passage-I**

**19.** **Answer: B) Cool and cloudy**
The passage clearly says the morning weather was *cool and cloudy*.

**20.** **Answer: C) It became hot and sunny**
It mentions that the sun came out and it became hot.

**21.** **Answer: C) It started raining**
The passage states that dark clouds came and it started raining, so he used an umbrella.

**Passage – II**

**22. Answer: B) Moon and stars**
The passage says, “At night, she saw the Moon and many stars in the dark sky.”

**23. Answer: B) It reflects sunlight**
It clearly states that “the Moon shines by reflecting sunlight.”

**24. Answer: B) It changes its shape**
The passage mentions that the Moon “looked different in shape on different days.”

## Previous year questions

**1. Correct answer: C**

**2. Correct answer: B** (SPACECRAFT)
ARFSACPETC → **SPACECRAFT**

**3. Correct answer: C** — Kalpana Chawla

**4. Correct answer: A** (Snowman)

**5. Correct answer: B**
Sun → Source of heat for us (3)
Moon → Appears to change its shape (1)
Stars → Seem to twinkle (2)
So the correct matching is:
(a)-3, (b)-1, (c)-2
