Solutions

Olympiad Program

Table of Content

1.	Plants	1 – 4
2.	Animals	5 – 7
3.	Human Body	8 – 11
4.	Food	12 – 15
5.	Housing and Clothing	16 – 21
6.	Family and Festivals	22 – 25
7.	Good Health and Safety Rules	26 – 28
8.	Transport and Communiction	29 – 31
9.	Air and Water	32 – 35
10.	Rocks and Minerals	36 – 39
11.	Earth and Universe	40 – 42

1. PLANTS

WORKSHEET – 1

1. **Correct answer: B (Label B – Leaf)**
   The leaf is called the "kitchen of the plant" because it makes food using sunlight.
2. **Correct answer: D (Root)**
   Label D represents the root, which grows under the soil.
3. **Correct answer: C (Tree)**
   A plant with a strong trunk is called a tree.
4. **Correct answer: A (Climber)**
   A climber has a weak stem and needs support to grow upward.
5. **Correct answer: B** (Because it is a Creeper with a weak stem and heavy fruit.)
   Creepers have weak stems, so they grow along the ground.
6. **Correct answer: A (Seed)**
   Seeds are found inside fruits and can grow into new plants.
7. **Correct answer: C (Herb)**
   Herbs are small plants with soft, green stems.
8. **Correct answer: B(Shrub)**
9. **Correct answer: A**
10. **Correct answer: A (Leaf)**
    Leaves make food for the plant using sunlight, air, and water.

WORKSHEET – 2

1. **Correct answer: A (Table)**
   A table is made from wood obtained from the trunk of a tree.
2. **Correct answer: A (Seeds)**
   Cooking oils are usually obtained from seeds such as mustard and sunflower seeds.
3. **Correct answer: B (Car Tire)**
   Rubber from the rubber tree is used to make car tires and other rubber products.
4. **Correct answer: B (Tulsi leaf)**
   Tulsi is a medicinal plant and is used in many home remedies.
5. **Correct answer: B (Rope)**
   Jute fiber is used to make ropes, bags, and mats.
6. **Correct answer: B (Oxygen)**
   Plants give us oxygen, which helps us breathe.
7. **Correct answer: B (Plants)**
   Most of our food, such as fruits, vegetables, and grains, comes from plants.
8. **Correct answer: C (Wheat)**
   Wheat is a cereal crop that we get from plants.
9. **Correct answer: A (Teak)**
   Teak is a tree that provides strong wood used for furniture and houses.
10. **Correct answer: D (By crushing the seeds)**
    Oil is usually obtained by crushing the seeds of plants such as mustard and sunflower.

Competitive Corner

SINGLE CORRECT OPTION TYPE

1. Correct answer: B (It is a Climber with a weak stem)
A pea plant is a climber. Its weak stem needs support to grow upward.

2. Correct answer: C (Root)
Roots grow under the soil and absorb water and minerals.

3. Correct answer: C (Diagram A is Tree; Diagram B is Herb)

4. Correct answer: B (Roots)
Plants absorb water from the soil through their roots.

5. Correct answer: C (Climbers)
Climbers need support such as a stick or wall to grow upward.

6. Correct answer: B (Tea)
Tea is a beverage that we get from plants.

7. Correct answer: C (Oxygen)
Plants give out oxygen, which we need for breathing.

8. Correct answer: A (Jasmine)
Jasmine flowers have a pleasant smell and are used to make perfumes.

9. Correct answer: B (Wood)
Tables, chairs, and doors are commonly made from wood.

10. Correct answer: C (Roots)
Roots hold the soil firmly and help prevent soil erosion.

ONE OR MORE THAN ONE CORRECT OPTION TYPE

11. Correct answer: A and C (Money plant and Pea plant)
Money plant and pea plant are climbers. They need support to grow upward. Pumpkin is a creeper, and mango is a tree.

12. Correct answer: A and C (Mint and Spinach)
Mint and spinach have soft, green stems, so they are herbs. Neem is a tree, and rose is a shrub.

13. Correct answer: B, C and D (Stem, Leaf and Fruit)
The stem, leaves, and fruits grow above the soil. Roots grow below the soil.

14. Correct answer: A, B and D (Neem, Aloe Vera and Tulsi)
Neem, Aloe Vera, and Tulsi are medicinal plants used to make medicines.

15. Correct answer: A, B and D (Rice, Wheat and Corn)
Rice, wheat, and corn are cereals. Moong dal is a pulse

ASSERTION AND REASON TYPE

16. Correct answer: A
The pumpkin plant grows along the ground because it has a weak stem and bears heavy fruits.

17. Correct answer: C
Neem is a tree. Trees are tall plants with strong trunks, not small plants with soft green stems.

18. Correct answer: A
Leaves are called the "kitchen" of the plant because they make food using sunlight, air, and water.

19. Correct answer: A
Tulsi and Neem are medicinal plants because they help us stay healthy and are used to treat illnesses.

20. Correct answer: A
We get oil from mustard and sunflower plants by crushing their seeds.

MATRIX MATCHING TYPE

21. A – R (Herbs – Small plants with soft green stems)
B – S (Shrubs – Medium-sized with hard woody stems)
C – P (Trees – Big and tall with a strong trunk)
D – T (Climbers – Need support to grow upwards)
E – Q (Creepers – Grow along the ground with heavy fruits)

22. A – S (Root – Holds the plant and drinks water)
B – T (Stem – Carries food and water to all parts)
C – Q (Leaf – Makes food using sunlight)
D – U (Flower – Helps the plant make seeds)
E – R (Fruit – Contains and protects the seeds)
F – P (Seed – Grows into a new plant)

23. A – R (Rice and Wheat – Cereals)
B – T (Peas and Kidney beans – Pulses)
C – Q (Turmeric and Cloves – Spices)
D – P (Tea and Coffee – Beverages)
E – S (Almond and Walnut – Nuts)

COMPREHENSHION TYPE

Passage 1

24. Correct answer: C (Trees)
Trees are very big and tall plants with strong trunks.

25. Correct answer: C (Mango)
A mango plant is a tree because it is tall and has a strong trunk.

26. Correct answer: B (Shrubs)
Shrubs are medium-sized plants with hard, woody stems.

Passage 2

27. Correct answer: C (Plants)
Most of our food, such as rice, wheat, fruits, and vegetables, comes from plants.

28. Correct answer: D (All of these)
Rice, wheat, and fruits are all foods that come from plants.

29. Correct answer: B (Fruits)
Plants give us fruits and vegetables that are good for our health.

Previous Year Questions

1. Correct answer: D (Muskmelon)
Muskmelon is a creeper that grows along the ground in fields because it has a weak stem.

2. Correct answer: B (3)
The dry fruits (nuts) are Pistachio, Almond, and Cashew.
Brown gram is a pulse, while turmeric, cinnamon, and bay leaf are spices.

3. Correct answer: C (Cinnamon, Clove)

Cinnamon is obtained from the bark of a plant and is used as a spice.
Clove is a flower bud used as a spice.

4. Correct answer: B (2)

Among the given fruits, Pomegranate and Guava are many-seeded fruits that grow on trees.

5. Correct answer: A

A thorny plant that bears seeded fruits
In the word grid, the word LEMON can be found (Row 4: L E M O N).
A lemon plant:
Has thorns
Bears seeded fruits

2. ANIMALS

WORKSHEET – 1

1. **Correct answer: B (Lion)**
   A lion is a wild animal that lives in forests and is not kept by humans.
2. **Correct answer: A (Herbivore)**
   Animals with flat, wide teeth are usually herbivores because they eat plants.
3. **Correct answer: B (Ox/Bullock)**
   An ox or bullock helps farmers pull plows in fields.
4. **Correct answer: B (Insects)**
   Animals with 6 legs and tiny wings belong to the insect group.
5. **Correct answer: B (Frog)**
   A frog can live both on land and in water.
6. **Correct answer: A (Sheep)**
   We get wool for woolen sweaters from sheep.
7. **Correct answer: C (Bear)**
   A bear eats both plants and animals, so it is an omnivore.
8. **Correct answer: B (Donkey)**
   A donkey is used to carry heavy loads on its back.
9. **Correct answer: C (6 legs)**
   Insects usually have six legs.
10. **Correct answer: A (Amphibian)**
    An amphibian is an animal that can live both on land and in water, like a frog.

WORKSHEET – 2

1. **Correct answer: B (Den)**
   A lion lives in a den.
2. **Correct answer: C (shed)**
3. **Correct answer: B (A Rabbit in a Burrow)**
   A bunny is a baby rabbit, and rabbits live in burrows.
4. **Correct answer: C (Lamb → "Baas")**
   A lamb (young sheep) makes a "baa" sound.
5. **Correct answer: B (A Goat and a Frog)**
   A kid is a baby goat, and a tadpole is a baby frog.
6. **Correct answer: C (Nest and Web)**
7. **Correct answer: C (Tadpole)**
   A tadpole is the young one of a frog.
8. **Correct answer: C (A Veterinarian)**
   A veterinarian (vet) is a doctor who treats animals.
9. **Correct answer: B (A Pen or Fold)**
   A pen or fold is an enclosure where sheep and lambs are kept.
10. **Correct answer: C (A Bee and a Spider)**
    Bees build beehives to store honey, and spiders build webs to catch food.

Competitive Corner

SINGLE CORRECT OPTION TYPE

1. **Correct answer: B (Burrow)**
   A rabbit lives in an underground hole called a burrow, which provides safety and shelter from predators.

2. Correct answer: B (Cow)
A cow makes a "moo" sound to communicate with other cows, especially to call or respond.

3. Correct answer: C (Silkworm)
A silkworm produces silk thread, which is used to make beautiful silk clothes.

4. Correct answer: B (Wild animals)
Animals that live in forests and hunt or find their own food are called wild animals.

5. Correct answer: A (Dog)
A dog is commonly kept at home as a pet and also helps in guarding the house.

6. Correct answer: B (Wings)
A bird uses its wings to fly in the sky.

7. Correct answer: C (Sty)
A piglet's home is called a sty, which is usually a muddy enclosure built for pigs.

8. Correct answer: A (Lion)
A lion lives in a forest and rests in a den or lair, often making a growling sound.

9. Correct answer: B (Brushing an animal that has thick fur)
Grooming means cleaning and caring for an animal, such as brushing its fur to keep it neat and healthy.

10. Correct answer: B (Duckling → "Quacks")
A duckling makes a "quack" sound when calling or responding to its mother.

ONE OR MORE THAN ONE CORRECT OPTION TYPE

11. Correct answer: A, B, D (Tiger, Elephant, Zebra)
Tiger, elephant, and zebra are wild animals that live in forests and survive by finding their own food. Cow is a domestic animal kept by humans.

12. Correct answer: A, C, D (Hen – Eggs, Honeybee – Honey, Goat – Milk)
Hen gives eggs, honeybee gives honey, and goat gives milk. Sheep mainly gives wool, not food.

13. Correct answer: A, C, D (Frog, Toad, Salamander)
Frog, toad, and salamander are amphibians because they can live both on land and in water. Whale lives only in water, so it is not an amphibian.

14. Correct answer: C (The small Piglet is happily "Oinking" in the mud.)
Piglets make an "oink" sound, especially when they are active or calling. Other options show incorrect animal sounds.

15. Correct answer: A, B, C
Tiger lives in a natural shelter called a lair. Bees build beehives, and spiders spin webs—these are natural homes. Cow lives in a shed built by humans, so it is not a wild animal home.

ASSERTION AND REASON TYPE

16. Correct answer: C
A cow is a domestic animal because it is raised by humans for milk and other uses. The reason is incorrect because cows do not live in deep jungles; they live in farms or sheds.

17. Correct answer: A
Frogs are called amphibians because they can live both on land and in water. So the reason correctly explains the assertion.

18. Correct answer: A
Sheep are useful farm animals because they give wool, which is used to make warm clothes like sweaters.

19. Correct answer: A
Rabbits live in burrows, which are underground holes. Wild animals like rabbits make or find their own homes in nature for safety.

20. Correct answer: A
A spider spins a web to live in and also to catch insects for food. Wild animals like spiders build their own homes for safety and survival.

MATRIX MATCHING TYPE

21. A) Lion → R) Den
B) Rabbit → T) Burrow
C) Bird → P) Nest
D) Dog → Q) Home / Kennel
E) Cow → S) Farm / Shed

22. A) Sheep → R) Wool for sweaters
B) Hen → T) Eggs and Meat
C) Honeybee → P) Honey and Wax
D) Silkworm → Q) Silk thread
E) Cow → S) Milk and Cheese

23. A) Cow → Q) Moos
B) Lion → R) Roars
C) Bird → P) Chirps
D) Cat → T) Meows
E) Dog → S) Barks

COMPREHENSION TYPE

PASSAGE-1

24. Correct answer: B (Healthy)
Animals eat different types of food to stay healthy and grow properly.

25. Correct answer: B (Plants)
Herbivores are animals that eat only plants such as grass, leaves, and fruits.

26. Correct answer: C (Cow)
A cow is a herbivore because it eats only plant food like grass and fodder.

PASSAGE-2

27. Correct answer: B (Kennel)
A puppy stays in a kennel, which is a small house made for dogs. It is a safe place where it rests and sleeps.

28. Correct answer: C (Under a bench)
The kitten was hiding under a bench to stay safe and avoid being seen.

29. Correct answer: C (By the pond)
The duck and ducklings were swimming and moving together by the pond, which is their natural water habitat**.**

Previous Year Questions

1. Correct answer: C: (a)-S, (b)-T, (c)-Q, (d)-R, (e)-P
Camel is called the "Ship of the Desert", Cheetah is the fastest land animal, Giraffe is the tallest land animal, Elephant is the largest land animal, and Lion is known as the "King of the Jungle".

2. Correct answer: B Animals like elephant and giraffe are called beasts of burden.

3. Correct answer: C (Scavenger – Herbivore – Omnivore)

4. Correct answer: A

5. Correct answer: D (Both B and C)

3. HUMAN BODY

WORKSHEET – 1

1. **Correct answer: C (Brain)**
2. **Correct answer: B (Lungs)**
3. **Correct answer: C (Eyes, Ears, Nose, and Hands)**
   Eyes, ears, nose, and hands are external body parts because they are visible from outside the body and help us interact with the surroundings.
4. **Correct answer: B (The Heart)**
   The heart is an internal organ that pumps blood throughout the body. A stethoscope helps a doctor listen to the heartbeat and check if it is working properly.
5. **Correct answer: A (The Stomach)**
   The stomach is an internal organ that helps in digestion by breaking down food into simpler forms so the body can use it for energy and growth.
6. **Correct answer: C (Legs and Feet)**
   Legs and feet are external body parts that help in movement. They become most active when a person runs, jumps, or walks.
7. **Correct answer: C (Watching television all day)**
   Watching television all day is not a healthy habit. Healthy practices include eating nutritious food, resting properly, and doing regular exercise.
8. **Correct answer: C (The Hands)**
   Hands are external body parts used to hold and grip objects like pencils, balls, and other things.
9. **Correct answer: B (The Brain)**
   The brain is an internal organ responsible for thinking, memory, and solving problems such as math puzzles or remembering names.
10. **Correct answer: B (Get some rest)**
    After physical activity, the body needs proper rest to recover and stay healthy. Rest helps refresh energy and keeps the body functioning well.

WORKSHEET – 2

1. **Correct answer: B (It helps us taste food.)**
2. **Correct answer: C (skin)**
3. **Correct answer: B (To protect the brain)**
   The skull is a hard bone that protects the brain from injury and damage. It acts like a strong cover around the brain.
4. **Correct answer: C (The body part moves)**
   When muscles pull on bones, they work together to create movement in the body, allowing us to bend, walk, or run.
5. **Correct answer: C (Icon C)**
   Healthy habits like exercise, proper posture, and physical activity help keep bones and muscles strong. (Based on the diagram, Icon B represents the correct healthy habit.)
6. **Correct answer: B (Fruits, vegetables, and milk)**
   These foods are rich in nutrients that help us grow, stay active, and keep our body healthy and strong.

7. Correct answer: B (To get energy and grow strong)
Nuts, milk, and vegetables provide essential nutrients that help in energy production and body growth.

8. Correct answer: C (By bathing and washing hands)
Keeping the body clean by bathing and washing hands helps prevent germs and protects us from diseases.

9. Correct answer: C (To rest and grow properly)
Sleep is important because it allows the body to rest, repair itself, and support proper growth and development.

10. Correct answer: C

Competitive Corner

SINGLE CORRECT OPTION TYPE

1. Correct answer: B (External body parts)
Shoulders and elbows are external body parts because they are visible and can be seen or touched from outside the body.

2. Correct answer: C (Stomach)
The stomach is an internal organ that helps in digesting food by breaking it down into simpler substances.

3. Correct answer: B (Lungs)
The lungs are internal organs located in the chest. They help in breathing by taking in oxygen and releasing carbon dioxide.

4. Correct answer: C (Bones and Muscles)
Bones and muscles work together to give shape to the body and help in movement like jumping, running, and walking.

5. Correct answer: C (Skin)
The skin is a sense organ that helps us feel temperature, such as whether something is hot or cold.

6. Correct answer: B (The brain)
All sense organs send the information they collect to the brain, which processes and understands it.

7. Correct answer: C (Ears)
Ears are sense organs that help us hear sounds, such as a ringing bell.

8. Correct answer: B (Skeleton)
The skeleton is the framework of bones that gives shape and support to the body.

9. Correct answer: B (The Rib cage)
The rib cage is a structure of bones that protects important organs like the heart and lungs.

10. Correct answer: C (It can create pain in the body)
Incorrect posture can lead to body pain and discomfort because it puts stress on muscles and bones.

ONE OR MORE THAN ONE CORRECT OPTION TYPE

11. Correct answers: A, B, D
Talking uses the mouth, walking uses the legs, and holding a toy uses the hands. All these are external body parts that can be seen and used for different activities. Thinking of a story uses the brain, which is an internal organ.

12. Correct answers: A, B, D
In an X-ray image, internal structures like bones, muscles, and the stomach can be seen because they are hidden under the skin. The nose is an external part, so it is not seen inside the body scan.

13. Correct answers: A, B, C, D
To stay healthy and active, we should eat nutritious food, exercise regularly, take proper rest, and maintain cleanliness. All these habits support good physical and mental health.

14. Correct answers: A, B
Bones provide structure and support to the body, while muscles help in movement. Together, they help the body stay strong and mobile.

15. Correct answers: A, C, D
Eyes, ears, nose, mouth, hands, and legs are external body parts because they are visible from outside and help us interact with the environment.

ASSERTION AND REASON TYPE

16. Correct answer: C
The heart works like a pump that circulates blood throughout the body. However, it does not help in digestion; digestion is done mainly by the stomach and intestines.

17. Correct answer: A
Hands, legs, and feet are external body parts because they are visible and used for activities like walking, holding, and running.

18. Correct answer: A
Exercise and proper rest keep the body healthy, improve strength, and help us stay active and happy.

19. Correct answer: A
The skin is a sense organ because it helps us feel sensations like hot, cold, soft, and hard.

20. Correct answer: A
The skull protects the brain, and the skeleton is the framework made of bones that supports the body.

MATRIX MATCHING TYPE

21. A) External Parts → Q) Head, Neck, Hands
B) Internal Parts → P) Brain, Heart, Lungs
C) Healthy Habits → S) Good food and Rest
D) Moving Parts → R) Bones and Muscles

22. A) Heart → R) Pumps blood to the body
B) Stomach → S) Helps in digestion of food
C) Brain → P) Helps us think and learn
D) Lungs → Q) Helps us breathe in and out

23. A) Eyes → R) Helps us to see things
B) Ears → (Missing full option in question, but correct function: Helps us hear sounds)
C) Nose → P) Helps us to smell
D) Tongue → (Missing full option in question, but correct function: Helps us taste food)

COMPREHENSHION TYPE

Passage 1

24. Correct answer: C (Skeleton)
The skeleton is a strong framework inside our body that supports us and gives shape.

25. Correct answer: B (Bones)
The skeleton is made up of bones, which are hard structures that support the body and protect internal organs.

26. Correct answer: B (Shape)
The skeleton gives our body a proper shape and structure.

Passage 2

27. Correct answer: B (Windows)
Sense organs are compared to windows because they help us receive information from the outside world.

28. Correct answer: C (Five)
We have five sense organs: eyes, ears, nose, tongue, and skin.

29. Correct answer: C (Eye)
The eye is a sense organ that helps us see things around us.

Previous Year Questions

1. Correct answer: D (Our facial expressions are controlled by them)
The word obtained after striking alternate letters is MUSCLES.
Muscles help in movement and control facial expressions like smiling, crying, etc.

2. Correct answer: D (legs, heart, kidneys, lungs)

3. Correct answer: A (Swimming)
Swimming is a full-body physical activity that helps build strong muscles and improves strength and stamina.

4. Correct answer: D (YESE)
Unscrambled word: EYES
The eyes are sense organs that help us see objects like the “Big Dipper” in the night sky.

5. Correct answer: C (Neck, Heart, Brain, Kidney)

4. FOOD

WORKSHEET – 1

1. **Correct answer: C (Image C)**
2. **Correct answer: A (group 1)**
3. **Correct Answer: B (Cheese)**
   Milk products are foods like cheese, butter, curd, and ghee that are directly prepared from animal milk.
4. **Correct answer: C (Bee)**
5. **Correct answer: A (Plants)**
6. **Correct answer: C (The plate itself)**
7. **Correct Answer: C (Clean and fresh)**
   To stay healthy, we should eat food that is clean and fresh because it is free from germs and safe for our body
8. **Correct answer: C (Eggs)**
   Eggs are animal-based food rich in protein. They help our body grow, build muscles, and repair damaged tissues.
9. **Correct answer: B (To get energy to work and study)**
   We eat food mainly to get energy. This energy helps us perform daily activities like studying, playing, working, and growing.
10. **Correct answer: C (From both plants and animals)**
    We get food from both plants and animals. Plants give us fruits, vegetables, and grains, while animals provide milk, eggs, meat, and honey.

WORKSHEET – 2

1. **Correct answer: D (Image D)**
2. **Correct answer: B (Group Y)**
3. **Correct answer: B (Carbohydrates)**
4. **Correct answer: B (To give extra energy and keep us warm)**
5. **Correct answer: B (Picture B)**
6. **Correct answer: B (Tool B)**
7. **Correct answer: C (Image C)**
8. **Correct answer: C (Item 3)**
9. **Correct answer: B (Icon B)**
10. **Correct answer: B (Proteins)**
    Proteins are the body-building components of food. They help our body grow, build muscles, and repair worn-out or damaged tissues.

Competitive Corner

SINGLE CORRECT OPTION TYPE

1. **Correct answer: C (Label C)**
   Label C points to "My Pods and Seeds," which are the actual edible parts (the pulses) of the plant.
2. **Correct answer: C (Image C)**
   Almonds are widely classified and eaten as culinary nuts, whereas spinach is a leafy vegetable, wheat is a grain, and mango is a fruit.
3. **Correct answer: A (Icon A)**
4. **Correct answer: B (Honey)**
5. **Correct answer: A (Image A)**

6. Correct answer: C (Image C)

7. Correct answer: B (Image B)

8. Correct answer: B (step 2)

9. Correct answer: A (Image A)

10. Correct answer: B (Body-building foods)

ONE OR MORE THAN ONE CORRECT OPTION TYPE

11. Correct answer: (A), (B), (C)

The girl can use more than one sense organ to learn about the flower. Different senses help her understand different features of the rose:
Eyes (A) – Help her see the red color and shape of the flower.
Nose (B) – Helps her smell the pleasant fragrance of the rose.
Skin (C) – Helps her feel the softness of the petals.

12. Correct answer: (A), (B)

Carrots, Apples are plant-based foods

13. Correct answer: (A), (C)

Some activities help our body stay healthy and strong:
Sleeping (A) – Gives rest to the body and helps it recover.
Running (C) – Is a physical exercise that keeps the body fit and active.

14. Correct answer: (A), (B), (C)

Protective foods are fruits and vegetables that help us fight diseases and keep us healthy.
Apples (A) – Rich in vitamins
Carrots (B) – Help improve immunity and eyesight
Mangoes (C) – Contain vitamins that protect the body

15. Correct answer: (A), (B), (D)

Good habits help us stay healthy and happy:
Washing hands before eating (A) – Prevents germs and diseases
Chewing food properly (B) – Helps in easy digestion
Eating meals on time (D) – Keeps the body healthy and active

ASSERTION AND REASON TYPE

16. Correct answer: (A)

Human beings get food from both plants and animals. Fruits come from plants, while eggs and milk come from animals, which clearly explains why we depend on both sources for food.

17. Correct answer: (A)

We need food every day because it gives us energy to work, play, and study. Without food, our body cannot function properly.

18. Correct answer: (A)

Rice, wheat, and pulses are plant-based foods because they are obtained from different parts of plants such as seeds and grains.

19. Correct answer: (A)

We should avoid eating too many sweets and chocolates because they can harm our teeth and cause cavities. This clearly supports the assertion.

20. Correct answer: (A)

We should chew food properly and eat slowly because good eating habits and drinking enough water help in proper digestion and keep the body healthy.

MATRIX MATCHING TYPE

21. A) Rice and Wheat → R
B) Honey → S
C) Eggs → P
D) Milk → Q
E) Spinach → T
Rice and wheat are grains obtained from plants.
Honey is produced by bees.
Eggs come from hen.
Milk comes from cow or buffalo.
Spinach is a green vegetable from plants.:

22. A) Fruits → R
B) Pulses → P
C) Milk Products → Q
D) Nuts → T
E) Vegetables → S
Fruits include apple and mango.
Pulses include lentils and beans.
Milk products include curd, butter, and cheese.
Nuts include almonds and seeds.
Vegetables include carrots and spinach.

23. A) How to eat → Q
B) Washing hands → P
C) Meal timing → S
D) Drinking water → R
We should chew properly and eat slowly.
Hands must be washed before and after meals.
Meals should be taken on time and not skipped.
Drinking plenty of water is important every day.

24. A) Energy-giving foods → S
B) Body-building foods → P
C) Protective foods → Q
D) Fats → R
Energy-giving foods provide energy to work and play.
Body-building foods help us grow and stay strong.
Protective foods help fight diseases.
Fats give extra energy and keep the body warm

COMPREHENSHION TYPE

Passage – 1

25. **Correct answer: (B) Plants and animals**
Our food mainly comes from two sources: plants and animals. Plants give fruits, vegetables, grains, and pulses, while animals give milk, eggs, meat, and honey.

26. **Correct answer: (C) Fruits**
Fruits like apple, mango, and banana come from plants. Milk, eggs, and meat come from animals.

27. **Correct answer: (B) Rice**
Rice is a grain obtained from plants. Apple is a fruit, milk and egg come from animals.

Passage – 2

28. Correct answer: (C) Eat a balanced diet and follow good habits
A balanced diet along with good habits helps us stay healthy, active, and strong. Junk food, skipping meals, and sleeping all day are unhealthy habits.

29. Correct answer: (B) Stay active
Energy-giving foods provide energy to our body, which helps us stay active and do daily activities.

30. Correct answer: (C) Rice
Rice is an energy-giving food because it contains carbohydrates that provide energy to the body.

Previous Year Questions

1. Correct answer: (C) Rice
Rice is an energy-giving food because it contains carbohydrates, which provide energy to the body for daily activities like walking, studying, and playing.

2. Correct answer: (B) Fish, eggs and pulses
Fish, eggs, and pulses are rich in proteins. Proteins help in building and repairing muscles, which is important for sportspersons to develop strong muscles.

3. Correct answer: (D) All of these
Food items can be classified into different groups:
Energy-giving foods (like rice, bread)
Body-building foods (like pulses, eggs)
Protective foods (like fruits, vegetables)
So, the items shown belong to all these categories.

4. Correct answer: (A) Milk
Milk helps in making bones and teeth strong because it contains calcium, which is essential for healthy bone development.

5. Correct answer: (D) All of these
Bread, sugar, and potato are all energy-giving foods because they contain carbohydrates. Carbohydrates provide energy needed for work and play.

5. Housing and Clothing

Worksheet – 1

1. **Correct Answer: B) House made of bricks and cement**
   Pucca houses are strong and permanent. They are made using materials like bricks, cement, steel, and concrete. Huts and tents are temporary**.**
2. **Correct Answer: C) Igloo**
   An igloo is made of ice blocks and is designed to keep people warm in very cold regions like polar areas**.**
3. **Correct Answer: B) Sleeping and resting**
   A bedroom is mainly used for rest and sleep. Other activities like cooking or bathing happen in different rooms.
4. **Correct Answer: B) Kutcha house**
   Kutcha houses are made from natural materials like mud, straw, and bamboo. They are not very strong and can be damaged easily in rain.
5. **Correct Answer: C) Concrete house**
   Hut, tent, and igloo are temporary or traditional houses. A concrete house is a permanent (pucca) house, so it is different.
6. **Correct Answer: B) Houseboat**
   A houseboat floats on water (rivers or lakes) and is used as a home.
7. **Correct Answer: A) 1-Sleeping, 2-Cooking, 3-Relaxing**
   Bedroom → Sleeping
   Kitchen → Cooking
   Living room → Relaxing and spending time with family
8. **Correct Answer: B) Regular cleaning: sweeping, mopping, dusting**
   Explanation**:** Cleaning removes dirt, germs, and pests, keeping the home healthy and safe.
9. **Correct Answer: C) Caravan**
   A caravan is movable and used for travel, so it is a temporary house. Others are permanent.
10. **Correct Answer: B) Prevents germs, pests, and bad odors**
    Clean homes help us stay healthy by reducing diseases and keeping the environment fresh.

Worksheet – 2

1. **Correct Answer: B) To feel comfortable and protect our body from weather**
   Clothes help us adjust to weather conditions—light clothes keep us cool in summer, and warm clothes protect us in winter.
2. **Correct Answer: C) Light and cotton clothes**
   Cotton clothes absorb sweat and allow air to pass through, keeping us cool in hot weather.
3. **Correct Answer: A) Sweater**
   Sweaters are made of wool, which keeps us warm in winter. T-shirts and shorts are usually cotton.
4. **Correct Answer: C) Cocoon of silkworm**
   Silk comes from the cocoon spun by silkworms. The fibres are carefully taken out and used to make silk cloth.

5. **Correct Answer: C) Plastic or rubber**
These materials are waterproof, so they prevent rainwater from soaking our clothes.
6. **Correct Answer: B) Umbrella**
An umbrella protects us from getting wet when it rains.
7. **Correct Answer: B) belongs to a group or does a specific job**
Uniforms help identify people like students, doctors, police, etc., and show their role.
8. **Correct Answer: B) Doctor**
Doctors wear white coats to maintain cleanliness and for easy identification.
9. **Correct Answer: A) 2 → 3 → 4 → 1**
Silkworm spins cocoon →
Cocoons are collected →
Silk fibres are unwound →
Fibres are woven into cloth
10. **Correct Answer: C) Gum boots**
Gum boots are waterproof and protect feet from water and mud while walking in rain.

Competitive Corner

1. **Correct Answer: C) Dome-shaped made of snow**
Stilt houses are built on raised poles to protect from floods and pests. Dome-shaped houses made of snow are igloos, not stilt houses.
2. **Correct Answer: B) It is mobile and can be moved from place to place**
A caravan is a movable house, while a pucca house is fixed and permanent.
3. **Correct Answer: C) Igloo – Snow blocks**
Igloos are built using blocks of snow. Other options are mismatched.
4. **Correct Answer: B) Sweeping and mopping floors**
Cleaning removes dust, dirt, and germs, keeping the home hygienic.
5. **Correct Answer: B) Nomads or campers**
Tents are temporary shelters used by people who travel frequently.
6. **Correct Answer: B) Houseboat**
Houseboats float on water, making them ideal for people living near rivers or lakes.
7. **Correct Answer: C) Brick**
Pucca houses are made of strong materials like bricks, cement, and steel.
8. **Correct Answer: B) Protect the house from sun and rain**
The roof acts as a shield against weather conditions.
9. **Correct Answer: C) Straw or dry leaves**
Thatched roofs use natural materials like straw, which are lightweight and easily available.
10. **Correct Answer: D) Postman – Raincoat only**
A postman usually has a uniform; a raincoat is only used during rain, not always.
11. **Correct Answer: D) Sweater**
Raincoat, umbrella, and gum boots are used in rainy season, while a sweater is for winter.
12. **Correct Answer: D) Cotton cap**
Umbrella, raincoat, and gum boots protect from rain, but a cotton cap does not.

One Or More Than One Type

13. Correct Answer: A) Pucca house, C) Concrete house
Pucca and concrete houses are made using strong materials like cement, bricks, and steel, so they are long-lasting and durable.

14. Correct Answer: A) Mud, B) Bamboo, C) Straw
Kutcha houses are made from natural and easily available materials like mud, bamboo, and straw. Cement is not used.

15. Correct Answer: A) Caravan, B) Houseboat, D) Tent house
These houses can be moved from one place to another, unlike pucca houses which are fixed.

16. Correct Answer: A) Living room, B) Bedroom, D) Study room
These rooms are used for daily indoor activities like relaxing, studying, and spending time together. Bathroom is mainly for personal hygiene.

17. Correct Answer: A) Stilt house
Stilt houses are built on raised platforms to protect from flood water.

18. Correct Answer: A) Bedroom
Bedrooms are specially designed for rest and sleep.

19. Correct Answer: A) Sweater, B) Jacket, C) Scarf
These are woollen clothes that trap heat and keep the body warm. Raincoats are for rain protection, not warmth.

20. Correct Answer: A) They absorb sweat
B) They help keep the body cool
C) They are usually worn in summer
Cotton absorbs sweat and allows air circulation, keeping us cool. It is not waterproof.

21. Correct Answer: A) Raincoat, B) Umbrella, C) Gum boots
These items keep us dry during rain. Woollen sweaters do not protect from rain.

22. Correct Answer: C) Gum boots
Gum boots are waterproof and protect feet from water and mud.

23. Correct Answer: C) Silk cloth
Silk is obtained from silkworms (an insect), making it a natural fibre.

Assertion and reason type:

24. Correct Answer: D) A is false, but R is true
Houseboats are not built on land—they float on water. The reason is correct because people live on water in houseboats.

25. Correct Answer: A)
Cleaning regularly keeps the house tidy and hygienic. The reason correctly explains why cleaning is important—it prevents germs, pests, and bad smells.

26. Correct Answer: A)
Cotton clothes are preferred in summer because they absorb sweat and allow air circulation, keeping us cool.

27. Correct Answer: A)
Uniforms make it easy to recognize people's professions (like police, doctors, etc.), and the reason clearly explains this.

MATRIX MATCHING TYPE

27. P. Pucca house → b) Made with bricks, cement, or stone

Pucca houses are strong and permanent. They are built using durable materials like bricks, cement, and stone.

Q. Kutcha house → a) Made of mud, bamboo, and straw

Kutcha houses are temporary and made from natural materials such as mud, bamboo, and straw.

R. Stilt house → c) Built on poles above the ground

Stilt houses are raised on poles to protect from floods and waterlogging.

S. Igloo → d) Made of blocks of snow

Igloos are houses found in very cold regions and are built using blocks of snow.

28. P. Cotton clothes → d) Worn to stay cool in summer

Cotton absorbs sweat and allows air circulation, helping to keep the body cool.

Q. Woollen clothes → a) Keeps body warm in winter

Wool traps body heat, keeping us warm in cold weather.

R. Silk → b) Obtained from silkworm cocoon

Silk is a natural fibre produced from the cocoon of silkworms.

S. School Uniform → c) Makes all students look neat and equal

Uniforms create a sense of equality and discipline among students.

Comprehension type:

Passage–1 (Pucca Houses)

28. Correct Answer: B) Bricks and cement

Pucca houses are constructed using strong and permanent materials like bricks, cement, steel, and concrete, which make them durable.

29. Correct Answer: C) Long-lasting

Since they are made with strong building materials, pucca houses are permanent and can last for many years.

30. Correct Answer: A) Heavy rain and wind

Pucca houses are strong and weather-resistant, so they can withstand heavy rain, strong winds, and other harsh weather conditions.

Passage–2 (Clothing in Different Seasons)

31. Correct Answer: B) To keep the body cool

Cotton clothes are light and absorb sweat, helping the body stay cool in hot summer weather.

32. Correct Answer: B) Woollen sweater

Woollen clothes trap body heat and protect us from cold weather, keeping us warm in winter.

33. Correct Answer: B) To stay dry during rain

Raincoats and gum boots are waterproof items used to prevent getting wet during rainy season.

Previous Year Questions

1. Correct Answer: D) Thatched hut

Caravan, Tent House, and Houseboat are all examples of temporary or movable houses.

Caravan → can move from place to place

Tent → temporary shelter, easy to set up and remove

Houseboat → built on water and can be moved in water routes
Thatched hut is different because it is a fixed, stationary house made using mud, straw, and other natural materials.

2. Correct Answer: D) Clothes made from this fibre keep us warm during winter season.

Identification of the Fibre: The animal shown in the picture is a sheep. Sheep provide us with wool, which is a natural animal fibre. Wool is a poor conductor of heat. The structure of wool fibres creates many tiny pockets of trapped air. Since air is an excellent insulator, it prevents our body heat from escaping into the cold environment. This is why we wear woollen clothes in the winter to stay warm.

3. Correct Answer: A) Cotton skirt

Identification of X: The picture shows cotton bolls growing on a plant. Therefore, the material obtained from 'X' is cotton.

Matching Material to Product:

Cotton skirt: Since cotton is a soft, breathable plant fibre used to make various types of clothing, it is the correct match for the material shown.

4. Correct Answer: A) (1)-Stem, (2)-Flax

Linen is a natural fibre made from the Flax plant (*Linum usitatissimum*). Unlike cotton, which comes from the fruit (boll), linen is a bast fibre, meaning it is obtained from the stem of the plant. To extract the fibres, the stems undergo a process called "retting" (soaking in water) to break down the natural adhesives holding the fibres together.

5. Correct Answer: D) All of these

This question tests your knowledge of how different building materials suit different types of housing:

Tent: These are temporary, portable shelters. Nylon or canvas is used because it is lightweight, durable, and water-resistant.

Hut: Usually found in rural areas, these are "Kucha houses" made from natural materials like straw, mud, and wood.

Bungalow: These are "Pucca houses" built for long-term durability using strong materials like bricks, cement, and steel.

6. Correct Answer: D) ILSK (SILK)

D) ILSK →**SILK** (From an insect)

7. Correct Answer: B) Sheep

B) Sheep: Sheep have a thick coat of hair known as fleece. This fleece is sheared and processed to make wool.

8. Correct Answer: C) Tent House

Mountaineers and trekkers are always on the move. They need a shelter that is:

- Portable**:** Can be folded and carried in a backpack.
- Lightweight**:** Made of materials like nylon or canvas.
- Easy to assemble**:** Can be set up and taken down quickly at different campsites.

9. Correct Answer: D) Bathroom

This is a logic-based question about the functions of different rooms.

- Aditya's Activity: He is "taking a bath."
- The Room: In a standard house, the bathroom is the specific room equipped with water facilities (like a shower, bathtub, or bucket) for personal hygiene and bathing.

10. Correct Answer: B) Cotton Plant

During the summer, we prefer clothes that keep us cool and dry.
The cotton plant (shown in image B) provides cotton fibres. Cotton is a natural, breathable fabric that absorbs sweat and allows air to circulate around the body, helping us stay cool in hot weather.

6. FAMILY AND FESTIVALS

WORKSHEET – 1

1. **Correct answer: B (A small family with parents and their children)**
   A nuclear family is a small family where parents and their children live together in one home.
2. **Correct answer: C (Grandparents, parents, uncles, aunts, and cousins)**
   A joint family includes many members living together such as grandparents, parents, uncles, aunts, and cousins.
3. **Correct answer: B (The children of your uncle and aunt)**
   Cousins are the children of your uncle and aunt.
4. **Correct answer: C (Grandparents)**
   The parents of our parents are called grandparents.
5. **Correct answer: B (Providing food, clothes, and education)**
   Parents are responsible for providing food, clothes, shelter, and education to their children.
6. **Correct answer: B (Studying well and helping with small chores)**
   Children help their family by studying well and assisting with small household chores.
7. **Correct answer: B (Celebrating festivals like Diwali, Eid, or Christmas together)**
   Family traditions include celebrating festivals and special occasions together.
8. **Correct answer: A (They make family bonds stronger)**
   Family occasions like birthdays and weddings help strengthen family relationships.
9. **Correct answer: C (Cooking special dishes for a festival)**
   Special food traditions include preparing special dishes during festivals.
10. **Correct answer: C (The family becomes happy and strong)**
    Working together helps the family stay happy, united, and strong

WORKSHEET – 2

1. **Correct answer: B (15 August)**
   India celebrates Independence Day on 15 August every year to mark freedom from British rule.
2. **Correct answer: C (Mahatma Gandhi)**
   Gandhi Jayanti is celebrated on 2 October as the birthday of Mahatma Gandhi, the Father of the Nation.
3. **Correct answer: B (Pongal)**
   Pongal is a harvest festival celebrated mainly in South India, especially in Tamil Nadu
4. **Correct answer: C (Lights)**
   Diwali is known as the festival of lights because people decorate their homes with lamps, candles, and diyas.
5. **Correct answer: B (Makar Sankranti)**
   Makar Sankranti is the festival when people enjoy flying kites in many parts of India.
6. **Correct answer: B (Dussehra)**
   Dussehra celebrates the victory of good over evil, especially Lord Rama's victory over Ravana.

7. Correct answer: A (Having a picnic in the park)
Outdoor activities are done outside the home, and picnics are a fun family outdoor activity.

8. Correct answer: C (Playing board games)
Board games are indoor activities played inside the house with family or friends.

9. Correct answer: B (Baisakhi)
Baisakhi is a harvest festival celebrated in Punjab.

10. Correct answer: C (Eid)
Eid is a religious festival celebrated by Muslims after completing the fasting month of Ramadan.

Competitive Corner

SINGLE CORRECT OPTION TYPE

1. Correct answer: B (Brother/Sister)
A family tree shows relationships within a family, and the missing person is a sibling (brother or sister), who belongs to the same generation as the child.

2. Correct answer: A (Parents + Children)
A nuclear family is a small family unit that includes only parents and their children living together in one home.

3. Correct answer: C (Grandparents)
Grandparents are the one who shares stories, gives love.

4. Correct answer: C (Birthday)

5. Correct answer: B (With love, care, and respect)
Family members should treat each other with love, care, and respect to maintain happiness and strong relationships.

6. Correct answer: B (When India got its Constitution)
Republic Day is celebrated on 26 January to mark the adoption of the Constitution of India.

7. Correct answer: C (Cooking or helping with food)
Helping in the kitchen is an indoor activity where family members can prepare or assist in making food together.

8. Correct answer: A (To make family time fun and strengthen bonds)
Doing activities together helps family members enjoy time together and build stronger relationships.

9. Correct answer: B (Kerala)
Onam is a harvest festival celebrated mainly in the state of Kerala.

10. Correct answer: B (Guru Nanak Jayanti)
Guru Nanak Jayanti is a religious festival celebrated by Sikhs to mark the birth of Guru Nanak Dev Ji.

ONE OR MORE THAN ONE CORRECT OPTION TYPE

11. Correct answer: B, C, D
Parents are responsible for providing food, clothes, education, and earning money to support the family.

12. Correct answer: A, B, C
A joint family includes grandparents, uncles, aunts, cousins, and many extended family members living together.

13. Correct answer: A, C, D
Family traditions include celebrating festivals, praying together, visiting places of worship, and sharing stories from elders.

14. Correct answer: A, B, C
Religious festivals mentioned include Eid, Guru Nanak Jayanti, and Christmas. Independence Day is a national festival, not a religious one.

15. Correct answer: A, B, D
Pongal, Baisakhi, and Makar Sankranti are harvest festivals celebrated in different parts of India.

ASSERTION AND REASON TYPE

16. Correct answer: A
A joint family is called a big family because it includes grandparents, parents, uncles, aunts, and cousins living together.

17. Correct answer: A
Children should help in small household work because working together makes a family happy, strong, and well-organized.

18. Correct answer: A
Family traditions make us feel proud because they are customs passed down from elders and connect us to our culture.

19. Correct answer: A
Independence Day is a national festival because it marks India's freedom from British rule and is celebrated across the country.

20. Correct answer: D
Diwali is known as the festival of lights, not the festival of colors. Religious festivals do teach us love, sharing, and respect for everyone.

MATRIX MATCHING TYPE

21. A) Parents → Q) Provide food, clothes, and education
B) Children → R) Study well and obey elders
C) Grandparents → S) Share stories and teach values
D) Everyone → P) Keep the house clean and help each other
Parents take care of the family's needs by providing food, clothes, and education.
Children should study well and respect their elders.
Grandparents share their experiences, stories, and valuable lessons.
Everyone in the family should help keep the house clean and support one another.

22. A) Pongal → R) South India
B) Baisakhi → Q) Punjab
C) Onam → P) Kerala
D) Makar Sankranti → S) Kite flying in many states
Pongal is a harvest festival celebrated in South India.
Baisakhi is a harvest festival celebrated in Punjab.
Onam is a famous festival celebrated in Kerala.
Makar Sankranti is known for kite flying in many states of India.

23. A) Independence Day → Q) 15 August
B) Republic Day → P) 26 January
C) Gandhi Jayanti → R) 2 October
Independence Day is celebrated on 15 August to mark India's independence.

Republic Day is celebrated on 26 January to mark the adoption of the Constitution of India.

Gandhi Jayanti is celebrated on 2 October as the birth anniversary of Mahatma Gandhi.

COMPREHENSHION TYPE

Passage-1

24. Correct answer: B (Work hard to provide food and education)

Parents work hard to provide food, education, and other necessities for their children and family.

25. Correct answer: C (Wisdom through stories)

Grandparents share wisdom, experiences, and valuable lessons through stories.

26. Correct answer: B (By studying and obeying elders)

Children help their family by studying well, obeying elders, and following good habits.

Passage-2

27. Correct answer: B (Spend time together)

When families are not celebrating festivals, they spend time together through different activities and enjoy each other's company.

28. Correct answer: C (Playing board games)

Playing board games is an indoor activity that families can enjoy together at home.

29. Correct answer: A (Drawing)

Drawing is an indoor activity that family members can do together inside the house.

Previous Year Questions

1. Correct answer: A (Dussehra)

Effigies of Ravana, Meghanada, and Kumbhakarna are burnt during Dussehra to celebrate the victory of good over evil.

2. Correct answer: B (Raj Ghat)

Raj Ghat is the memorial (samadhi) of Mahatma Gandhi, who is known as the Father of the Nation.

3. Correct answer: A (Kaveri has three sons and two grandsons.)

From the family tree, Kaveri has three sons and two grandsons.)

4. Correct answer: D (1)

Rohit's paternal grandparents have two sons. Since Rohit's father has two nephews and there are four grandsons in total, Rohit and one brother make up the remaining two grandsons. Therefore, Rohit has one brother.

5. Correct answer: C (Independence Day)

On Independence Day (15 August), the Prime Minister of India hoists the National Flag at the Red Fort and addresses the nation.

7. Good Habits and Safety Rules

Worksheet – 1

1. **Correct Answer: B) Fruits and vegetables**
   They provide nutrients that help us grow healthy and strong.
2. **Correct Answer: A) It keeps our body working properly**
   Clean water helps our body stay healthy and function well.
3. **Correct Answer: B) Sleeping at night**
   Sleep helps the body rest, recover, and grow.
4. **Correct Answer: C) 9–10 hours**
   Children need about 9–10 hours of sleep each night for good health.
5. **Correct Answer: A) To keep our body fit and strong**
   Exercise strengthens muscles and keeps us healthy.
6. **Correct Answer: A) Our body and mind work well and we feel happy and strong**
   Good health means physical and mental well-being.
7. **Correct Answer: B) To keep our mouth clean**
   Brushing removes food particles and germs from teeth.
8. **Correct Answer: B) Germs**
   Germs can grow on teeth if they are not cleaned properly.
9. **Correct Answer: A) Cavities and infections**
   Germs can damage teeth and cause infections.
10. **Correct Answer: A) Before and after meals**
    Washing hands before and after meals helps prevent the spread of germs.

Worksheet – 2

1. **Correct Answer: B) Being free from accidents or danger**
   Safety means protecting ourselves from harm, accidents, and danger.
2. **Correct Answer: B) They have sharp edges that can cut the hand**
   Sharp objects like knives and scissors can cause cuts and injuries.
3. **Correct Answer: A) Fire can burn the skin and cause accidents**
   Fire is dangerous and can cause burns and other accidents.
4. **Correct Answer: A) It can give a strong electric shock**
   Touching a socket can cause a serious electric shock and injury.
5. **Correct Answer: C) Go outside with their parents or elders**
   Parents or elders help keep children safe outdoors.
6. **Correct Answer: B) On the zebra crossing**
   Zebra crossings are specially made for safe road crossing.
7. **Correct Answer: C) Keep distance from running vehicles**
   Staying away from moving vehicles helps prevent accidents.
8. **Correct Answer: C) Do not touch the sharp objects and call an adult**
   Children should not handle sharp objects and should ask an adult for help.
9. **Correct Answer: B) Naveen**
   Walking on the footpath is safer than walking on the road.
10. **Correct Answer: A) To avoid accidents and injuries**
    Safety rules help protect us from harm and keep us safe.

Competitive Corner

Single Correct Option Type

1. Correct Answer: A) Fruits and vegetables
Fruits and vegetables provide vitamins and minerals that help us stay healthy.

2. Correct Answer: B) Playing and exercising
The picture shows children playing games, cycling, and being active outdoors.

3. Correct Answer: A) It helps the body rest and feel fresh
Good sleep helps our body recover and gives us energy for the next day.

4. Correct Answer: B) Soap and water
Soap and water remove dirt and germs from our hands.

5. Correct Answer: B) To remove dust, dirt, and germs
Trimming nails keeps them clean and prevents germs from collecting under them.

6. Correct Answer: B) To keep our body clean and healthy
Bathing daily removes sweat, dirt, and germs from the body**.**

7. Correct Answer: A) Sleeping well at night
Proper sleep helps the body grow, repair tissues, and stay healthy.

8. Correct Answer: A) To keep the body working properly
Water helps in digestion, circulation, and maintaining body functions.

9. Correct Answer: B) Germs can enter our body and make us sick
Dirty hands can carry harmful germs that may cause illnesses.

10. Correct Answer: B) They may cause burns and injuries
Hot stoves can burn the skin and cause serious accidents.

11. Correct Answer: A) It makes muscles strong and keeps us active
Outdoor games provide exercise, strengthen muscles, and improve fitness.

ONE OR MORE THAN CORRECT OPTION TYPE

12. Correct Answer: A, B, C
Eating fruits and vegetables, exercising daily, and getting proper sleep help maintain good health. Eating junk food every day is unhealthy.

13. Correct Answer: A, B, C
Bathing daily, trimming nails regularly, and washing hands with soap keep the body clean and free from germs. Playing with electric plugs is unsafe and does not help cleanliness.

14. Correct Answer: A, B, C
Sharp kitchen tools, electrical switches/plugs, and fire can cause injuries at home. Fruits do not cause injuries.

15. Correct Answer: A, B, C
Brushing teeth, washing hands before meals, and keeping nails short help prevent germs from spreading. Eating only candies does not protect us from germs.

16. Correct Answer: A, B, C
Running, skipping rope, and cycling are physical activities that keep the body fit and healthy. Sitting and resting do not improve fitness.

17. Correct Answer: A, B, C
Walking on the footpath, crossing at zebra crossings, and going outside with elders help us stay safe on the road. Standing close to moving vehicles is dangerous.

ASSERTION AND REASON TYPE

18. Correct Answer: A

Washing hands removes germs that can cause illness, so children should wash their hands before eating.

19. Correct Answer: A

Electric current can cause serious shocks; therefore, children should not play with switches and plugs.

Matching Type Questions

20. Correct Answer:

A → S, B → R, C → Q, D → P

Explanation:

A: Crossing at a zebra crossing → Follow Traffic Rules While Crossing Roads.

B: Wearing a seat belt → Follow Vehicle Safety Rules.

C: Wearing a life jacket → Follow Swimming Pool Safety Rules.

D: Applying a bandage → Practice First Aid for Minor Injuries.

Previous year questions

1. Correct Answer: C) Thermometer

A thermometer is commonly kept in a first-aid box to check body temperature.

2. Correct Answer: D) Always stand close in front or behind the swing when others are swinging.

Standing near a moving swing is unsafe and can cause injuries.

3. Correct Answer: D) All of these

Playing with a sharp object, getting on/off a moving bus are and putting hands outside are all unsafe activities.

4. Correct Answer: C) Daily

Bathing daily helps maintain cleanliness and good health.

5. Correct Answer: C) Write on the desk in your classroom

Writing on desks is a bad habit and should not be encouraged.

8. Transport and Communication

Worksheet – 1

1. **Correct Answer: (B) Ship**
   A ship is specially designed to carry heavy goods over long distances on water.
2. **Correct Answer: (B) Ambulance**
   An ambulance is meant for emergencies and medical transport.
3. **Correct Answer: (B) Train**
   A train runs on tracks, travels on land, and carries many passengers.
4. **Correct Answer: (B) Bus**
   A bus travels on roads (not tracks) and carries passengers.
5. **Correct Answer: (B) Land + Rail**
   A train runs on land and uses railway tracks.
6. **Correct Answer: (B) Fire truck – Put out fires**
   A fire truck is a special vehicle used to carry tools to put out fires
7. **Correct Answer: (D) Aeroplane**
   Ship, boat, and ferry are water transport, while an aeroplane is air transport.

Worksheet – 2

1. **Correct Answer: (B) Talking to someone far away instantly**
   The image shows a video call on a laptop, which allows instant communication over distance.
2. **Correct Answer: (A) Letter**
   A letter is written, while telephone, radio, and TV are audio/visual communication**.**
3. **Correct Answer: (B) Make a phone call**
   Phone calls provide instant communication and quick replies.
4. **Correct Answer: (B) Mass communication**
   Television broadcasts information to many people at once.
5. **Correct Answer: (A) Letter**
   Letters take time to be delivered, so they are slower.
6. **Correct Answer: (A) Email – Written communication**
   Email is a form of written communication. Others are not written.
7. **Correct Answer: (C) Phone call**
   Again, phone calls are the fastest for immediate responses.

Worksheet – 3

1. **Correct Answer: (B) Map**
   A map shows all these features clearly.
2. **Correct Answer: (A) North, South, East, West**
   These are the four main (cardinal) directions.
3. **Correct Answer: (B) Do not blow horn**
   It's a "No Horn" sign.
4. **Correct Answer: (A)**
   The red circle with a white horizontal bar is the "No Entry" sign.
5. **Correct Answer: (D) right**
   North, East, and West are directions, but "right" is a relative direction.
6. **Correct Answer: (C) Turn left**
   It is "Left Curve " sign. Hence we should turn left.

7. Correct Answer: (A) (the one pointing North)
North and South are opposite directions.

Competitive Corner

Single Correct Option Type

1. Correct Answer: A) Radio
Radio broadcasts information to many people at the same time**.**

2. Correct Answer: B) Bullock Cart
It is suitable for carrying crops from villages to nearby markets. While others are not suitable for village transportation.

3. Correct Answer: A) Train
Trains are used for traveling between cities.

4. Correct Answer: A) Bus, Train
Both are land transport and public transport.

5. Correct Answer: A) Car
A car is a convenient land transport for shopping trips.

6. Correct Answer: B) South
When facing east (rising sun), south is on your right.

7. Correct Answer: C) Shows live moving vehicles
Regular maps do not show live vehicle movement.

8. Correct Answer: B) East, West
The sun rises in the east and sets in the west.

9. Correct Answer: A) It has to be carried without internet (using post).
Letters are physically delivered, which takes more time.

10. Correct Answer: B) Mail (Email)
Email is both written communication and fast communication.

ONE OR MORE THAN CORRECT OPTION TYPE

11. Correct Answer: C, D
Helicopters and ropeways/cable cars can reach mountain tops where there are no roads.

12. Correct Answer: A, B, D
Bus, train, and bicycle are land transport; ship is water transport.

13. Correct Answer: A, B, D
A letter needs a stamp and PIN code, and the message is written on paper. It is not sent through the internet.

14. Correct Answer: A, B, D
Metro runs on electricity, trucks carry goods, and buses run on roads. Aeroplanes do not run on tracks.

15. Correct Answer: A, B, C
Radio, television, and newspapers communicate information to large numbers of people. A letter is personal communication.

ASSERTION AND REASON TYPE

16. Correct Answer: A
Assertion: Buses and cars are used for land transport — **True**.
Reason: They move on roads — **True**.
Since vehicles that move on roads are classified as land transport, the reason correctly explains the assertion.

17. **Correct Answer: D**
Assertion: Television is a means of personal communication — **False**. Television is a means of mass communication.
Reason: Television gives information and entertainment to many people — **True**.
Therefore, A is false but R is true.

Matching Type Questions

18. A (Bus) → 2/4 (Land transport)
B (Ship) → 3 (Water transport)
C (Aeroplane) → 1 (Air transport)
D (Train) → 2/4 (Land transport)

19. A (Letter) → 2 (Written message)
B (Map) → 1 (Shows directions)
C (Television) → 3 (Mass communication)
D (East) → 4 (Direction of sunrise)

COMPREHENSION TYPE

Passage – I

20. Correct Answer: B) Bus
The passage states that Riya goes to school by bus every day.

21. Correct Answer: C) Letters
The passage says that her father sends her letters every week.

22. Correct Answer: B) Mass
Television provides information and entertainment to many people at the same time, making it a form of mass communication.

Passage-II

23. **Correct Answer: B) Map**
The passage clearly states that Aman looks at a map to find the way.

24. Correct Answer: C) Roads and directions
The passage says that the map shows roads and directions.

25. **Correct Answer: A) East**
The passage states that the sun rises in the east, so Aman walks towards the east to reach the park.

Previous year questions

1. Correct Answer: D) S can be a scooter whereas P can be an autorickshaw.
P is a submarine (water transport, not land), and **Q** is a pull cart (land transport that does not run on petrol). This perfectly matches the "No" paths for the first two questions in the flowchart.

2. Correct Answer: B) School
The road sign warns drivers that a school or school zone is nearby.

3. Correct Answer: D) South
The rising Sun is in the East. If Kittu faces East, her right side will be towards the South.

4. Correct Answer: D
The blue sign with the letter **P** indicates a parking area.

5. Correct Answer: D) b only
Only the train (b) runs on railway tracks. The other vehicles run on roads, water, or in the air.

9. Air and Water

Worksheet – 1

1. Correct Answer: B
Tiny invisible organisms in the air that cause illness are called germs like bacteria and viruses.

2. Correct Answer: B
A weathercock shows wind direction. A windsock shows wind direction and speed.

3. Correct Answer: C
Smoke is not a natural component of clean air; it is released by vehicles and factories and causes air pollution.

4. Correct Answer: C
A gentle, soft wind that feels pleasant and moves leaves slowly is called a breeze.

5. Correct Answer: C
Air is present everywhere, including inside empty containers. So this statement is incorrect.

6. Correct Answer: B
When air is blown into a balloon, it expands because air takes up space, making the balloon larger.

7. Correct Answer: C
Planting trees helps keep the air clean and fresh by absorbing carbon dioxide and releasing oxygen.

Worksheet – 2

1. Correct Answer: B
Earth looks like a blue marble from space because most of its surface is covered with water.

2. Correct Answer: B
Potable water is clean and safe to drink, with no color, smell, or taste.

3. Correct Answer: B
A river is surface water. A well gives underground water.

4. Correct Answer: C
Boiling water kills germs by heating it, making it safe for drinking.

5. Correct Answer: D
Turning off the tap while scrubbing hands saves water. The other options waste water.

6. Correct Answer: B
Farmers use canals to carry water from rivers or dams to fields for irrigation.

7. Correct Answer: B
An open bucket left outside can get contaminated with dust and germs, so it is not a safe way to store drinking water.

Worksheet – 3

1. Correct Answer: A
Water vapour is the gaseous form of water. The other options are incorrectly matched.

2. Correct Answer: B
When water is heated and changes into water vapour (gas), the process is called evaporation.

3. Correct Answer: B
When water vapour cools and changes back into liquid droplets, it is called condensation.

4. Correct Answer: C
The Sun provides the heat energy needed for evaporation, which drives the water cycle.

5. Correct Answer: B
First, the Sun heats water (iii), then water vapour rises and forms clouds (i), next it falls as rain or snow (ii), and finally water flows back to rivers and oceans (iv).

6. Correct Answer: D
The water cycle does not create new water; it only recycles existing water, so we still need to save it.

7. Correct Answer: B
Water is continuously recycled through the water cycle, so the same water has been reused for millions of years.

Competitive Corner

Single Option Correct Type

1. Correct Answer: B
When the bottle is heated, the air inside expands and rushes out when opened.

2. Correct Answer: B
Germs spread easily because they can move with air currents from one person to another.

3. Correct Answer: C
After rain, water evaporates into vapour and mixes with the air.

4. Correct Answer: C
Covering drinking water keeps it clean and safe by stopping dust and germs from getting in.

5. Correct Answer: C
A hand pump draws water from underground sources, so it shows the use of underground water.

6. Correct Answers: B
Fire needs oxygen from the air to keep burning.

7. Correct Answer: C
This happens due to condensation, where water vapour cools and turns into liquid droplets.

One or More than One Correct Option Type

8. Correct Answer: A, B
Boiling and filtration help remove germs and impurities, making water safe to drink. Adding sand or leaving water open does not ensure safety.

9. Correct Answer: A, B, D
The Sun provides energy. Water vapour forms clouds. Water flows back into water bodies.

10. Correct Answer: A, B
A weathercock shows the direction of wind. A windsock shows both wind direction and speed.

Assertion and Reason Type

11. Correct Answer: C

Natural water should be boiled or filtered before drinking. Potable water does **not** have a distinct blue color or sweet taste; it is colorless, odorless, and tasteless.

12. Correct Answer: A

A weathercock helps understand wind patterns. It shows the direction of the wind, which helps in studying patterns.

Matrix Matching Type

13. Correct Answer: a–S, b–Q, c–P, d–R

Ice tray (water turns into ice) – freezing. Ice melting (ice changes into water) – melting. Water disappearing after some time involves evaporation. Water droplets on the outer wall of the glass with cold water is due to condensation.

14. Correct Answer: a–Q, b–P, c–S, d–R

Gentle, soft wind is breeze. Strong, fast wind is storm. Steam from hot food is water vapour. Smoke is released from fires and vehicles.

Comprehension Type

Passage – I

15. Correct Answer: B

A sailboat moves because wind pushes against the sails, helping it move forward.

16. Correct Answer: C

Air helps in dispersing seeds to different places, aiding plant growth.

17. Correct Answer: B

The glass already contains air, which occupies space and prevents water from entering easily.

Passage – II

18. Correct Answer: B

When water is cooled in a freezer, it freezes and turns into a solid called ice.

19. Correct Answer: C

Water is continuously reused through the water cycle, so it remains the same over millions of years.

20. Correct Answer: D

Water vapour cools and forms tiny liquid droplets on a cold surface, which is condensation.

Previous Year Questions

1. Correct Answer: D

Water changes into water vapour on heating (evaporation), and this causes the water level to decrease over time.

2. Correct Answer: A

Seawater is not a potable water and drinking seawater is unhealthy.

3. Correct Answer: D

Hail is a type of precipitation that occurs in solid form, so it matches X. Rain is liquid precipitation, so it matches Y.

4. Correct Answer: D

The image in option D (person watering plants) does not make air dirty, while the others (factory smoke, burning, vehicles) cause air pollution.

5. Correct Answer: C
Combing hair (or similar personal activity shown) does not require water, while the other activities do.

6. Correct Answer: C
Crossing out alternate letters from "G S E M R G M K S E" gives G E R M S.

7. Correct Answer: D
Drying clothes requires air (wind) to help evaporate water.

8. Correct Answer: D
Clothes moving on a line, smoke direction and flag waving show that wind has direction.

9. Correct Answer: A
Rivers are sources of freshwater, while seas and oceans contain salty water.

10. Correct Answer: D
Clean drinking water should be colourless, odourless, and tasteless.

10. Rocks and Minerals

Worksheet – 1

1. **Correct Answer: C) Statues and floors**
   Marble is a smooth, shiny rock that can be easily carved, so it is widely used for statues and flooring.
2. **Correct Answer: B) Granite**
   Explanation: Granite is a very hard and durable igneous rock used in construction.
3. **Correct Answer: B) Producing heat and electricity**
   Coal is a fossil fuel mainly used as a source of energy in power plants and industries.
4. **Correct Answer: A) Easily polished**
   Marble has a smooth texture and can be polished to give a shiny finish.
5. **Correct Answer: B) Coal**
   Coal is formed from dead plant remains that got buried and compressed over millions of years.
6. **Correct Answer: C) Reddish or greyish**
   Granite commonly appears in shades of grey, pink, or reddish due to its mineral composition.
7. **Correct Answer: B) Sandstone**
   Sandstone is a sedimentary rock formed by compacted sand particles.
8. **Correct Answer: B) Taj Mahal and Victoria Memorial**
   Both monuments are made mainly of marble and are famous architectural structures.
9. **Correct Answer: C) Building stones, walls, and pavements**
   Sandstone is strong and widely used in construction work.
10. **Correct Answer: C) Chalk**
    Chalk forms soft white cliffs, such as the famous White Cliffs of Dover.

Worksheet – 2

1. **Correct Answer: B) Basic building blocks of rocks**
   Minerals are naturally occurring substances that form rocks and are the basic components of the Earth's crust.
2. **Correct Answer: C) Quartz**
   Quartz is a naturally occurring mineral found in rocks, unlike wood or plastic which are not minerals.
3. **Correct Answer: B) Silicon and oxygen**
   Quartz is made up of silicon dioxide (SiO_2), which contains silicon and oxygen.
4. **Correct Answer: B) Ability to vibrate steadily**
   Quartz vibrates at a constant frequency, which helps in accurate timekeeping in watches.
5. **Correct Answer: B) Flexibility and shiny appearance**
   Mica can be split into thin sheets and has a shiny surface.
6. **Correct Answer: C) Carbon**
   Diamond is a crystalline form of carbon arranged in a very strong structure.
7. **Correct Answer: C) It is very hard**
   Diamond is the hardest natural substance, making it ideal for cutting hard materials.

8. **Correct Answer: C) Talc**
   Talc is the softest mineral and can be easily scratched with a fingernail.
9. **Correct Answer: C) Soapy**
   Talc feels smooth and soapy when touched.
10. **Correct Answer: B) Electricity and heat**
    Graphite has free electrons that allow it to conduct electricity and heat.

Competitive Corner:

1. **Correct Answer: B) Writing on blackboards**
   Chalk is soft and leaves marks easily, so it is used for writing on blackboards.
2. **Correct Answer: B) Black and used as fuel**
   Coal is a black fossil fuel used to produce heat and electricity.
3. **Correct Answer: B) Roofing tiles, floor tiles, and blackboards**
   Slate is a hard, flat rock that splits into sheets, making it useful for roofs and blackboards.
4. **Correct Answer: B) Tiny remains of sea animals**
   Chalk forms from the skeletal remains of microscopic marine organisms.
5. **Correct Answer: B) It is smooth, colorful, and used for statues**
   Marble is a metamorphic rock that can be polished and used for statues and decoration.
6. **Correct Answer: B) Sandstone**
   Sandstone forms when sand particles are compacted and cemented together.
7. **Correct Answer: B) Pencil leads**
   Graphite is soft and leaves marks on paper, so it is used in pencils.
8. **Correct Answer: C) Talc**
   Talc is very soft and smooth, so it is used in powders and cosmetics.
9. **Correct Answer: B) Granite and sandstone**
   Quartz is a major mineral present in both granite and sandstone.
10. **Correct Answer: C) It is a good insulator**
    Mica does not allow electricity to pass through easily, making it useful as an insulator.
11. **Correct Answer: C) Are made of carbon**
    Both are forms of carbon but have different structures.
12. **Correct Answer: A) Chalk < Coal < Slate < Granite**
    Chalk is softest, followed by coal, slate, and granite being the hardest.
13. **Correct Answer: D) Coal**
    Granite, marble, and sandstone are rocks used in construction, while coal is a fuel.
14. **Correct Answer: B) Diamond > Graphite > Mica > Talc**
    Diamond is the hardest, while talc is the softest mineral.
15. **Correct Answer: C) Graphite**
    Diamond, quartz, and talc follow a hardness scale, but graphite is unusually soft and slippery compared to others.

One or more than one option correct type

16. **Correct Answer: A) Chalk**
    Chalk is a soft sedimentary rock that can be easily broken into pieces.

17. Correct Answer: A) Red Fort & B) City of Petra

This question typically has two correct Correct Answers depending on the context. The Red Fort in India is famous for its red sandstone, and the City of Petra in Jordan is entirely carved into sandstone cliffs.

18. Correct Answer: A) Chalk & B) Slate

Rocks used for writing purposes include:

Both are traditionally used for writing. Chalk is used to write on blackboards, while Slate was historically used to make handheld "writing slates" for students because it splits into thin, flat sheets.

19. Correct Answer: A) Building purposes, C) Decorative purposes

Both marble and sandstone are used in buildings for decoration and construction.

20. Correct Answer: B) Diamond

Diamond is a precious mineral used in jewellery due to its shine and hardness.

21. Correct Answer: A) Diamond and B) Graphite

Both diamond and graphite are different forms (allotropes) of carbon.

22. Correct Answer: A) Mica & B) Talc

Talc is the softest mineral (1 on the Mohs scale) and is used to make talcum powder and eyeshadows to provide a smooth texture.

Mica is used to add "shimmer" or "glitter" to products like lipsticks, nail polish, and foundation.

Assertion and reason type

23. Correct Answer: C) A is true, R is false

Marble is a metamorphic rock formed from limestone, not from sand grains. Its different colors come from impurities present during its formation.

24. Correct Answer: D) A is false, R is true

Diamond and graphite are both made of carbon, but they have very different structures. Diamond is the hardest natural substance, while graphite is very soft and slippery. So, they do not have the same hardness.

Match the following

25. Final Match: P-b, Q-d, R-c, S-a

p. Marble is a metamorphic rock that can be polished to a high shine, making it a favorite for architecture and art.

q. Sandstone is a durable sedimentary rock often used in large-scale construction (like the Red Fort).

r. Slate splits easily into thin, flat layers, making it ideal for flat tiles and writing surfaces.

s. Coal is a combustible sedimentary rock formed from ancient plant matter, primarily used for energy.

26. Final Match: P-b, Q-a, R-c, S-d

p. Quartz crystals vibrate at a very precise frequency when electricity is applied, which is essential for keeping time in watches and clocks.

q. Talc is the softest mineral known; it is crushed into a fine powder used in cosmetics to absorb moisture.

r. Graphite is made of carbon layers that slide over each other easily, making it "slippery" enough to leave marks on paper or lubricate machinery.

s. As the hardest natural substance on Earth, diamonds are used on the tips of heavy-duty drills and saws to cut through rock and metal.

Comprehension type:

Passage-1

27. Correct Answer: B) Pressed sand grains

Sandstone is a sedimentary rock formed when sand particles are compacted and cemented together over time.

28. Correct Answer: B) Walls and pavements

Sandstone is strong and durable, so it is commonly used in construction like walls, buildings, and pavements.

29. Correct Answer: B) Red Fort and City of Petra

Both the Red Fort in India and the ancient City of Petra are famous structures made using sandstone.

Passage II: Mica

30. Correct Answer: B) Resists heat and electricity

Mica does not allow electricity or heat to pass easily, making it a good insulator in electrical equipment.

31. Correct Answer: A) Granite

Mica is a mineral commonly present in igneous rocks like granite.

32. Correct Answer: B) It is shiny and reflective

Mica has a shiny appearance that gives a glittery effect, so it is used in cosmetics like powders and makeup products.

11. Earth and Universe

Worksheet – 1

1. Correct Answer: C) Craters
The Moon's surface is full of craters formed by meteor impacts.

2. Correct Answer: C) Star
The Sun is a star that gives us light and heat.

3. Correct Answer: B) Satellite
The Moon is Earth's natural satellite.

4. Correct Answer: B) It provides light and heat and keeps planets in orbit
The Sun gives energy and its gravity holds the planets in their paths.

5. Correct Answer: C) Sun
The Sun is at the center and is the main source of light and heat.

Worksheet – 2

1. Correct Answer: B) Mountains
Mountains are very high landforms with steep slopes.

2. Correct Answer: B) Plains
Plains are flat and fertile, making them perfect for growing crops.

3. Correct Answer: B) Island
An island is completely surrounded by water.

4. Correct Answer: B) Valley
A valley is a low area between hills or mountains.

5. Correct Answer: A) Hills
Hills are not as tall or steep as mountains.

Worksheet – 3

1. Correct Answer: C) Sun
The only natural source shown is the Sun.

2. Correct Answer: B) Light, object, surface

3. Correct Answer: B) Shadow
When light is blocked by an object, it creates a shadow.

4. Correct Answer: C) Day
If one side of the Earth is facing the Sun, it experiences daytime.

5. Correct Answer: C) Move the torch nearer to the pear
A shadow becomes bigger when the object is closer to the light source.
So, we move the torch closer to the pear.

6. Correct Answer: C) Sea
This describes a sea.

7. Correct Answer: C) River
A river usually starts in mountains and flows into oceans.

8. Correct Answer: B) Salt water
Oceans contain salt water.

Competitive Corner

Single Correct Option Type

1. Correct Answer: B) Earth rotates on an axis.
Day and night happen because Earth spins on its axis. The side facing the Sun has day, the other side has night.

2. Correct Answer: B) Reflects sunlight
The Moon doesn't make its own light—it shines by reflecting sunlight.

3. Correct Answer: B) Shadow
When light is blocked by an object, a shadow is formed.

4. Correct Answer: C) 70%
About 70% of Earth's surface is covered with oceans.

5. Correct Answer: C) Pacific
The Pacific is an ocean. Arabian is a sea, Dal Lake is a lake, and Ganga is a river.

6. Correct Answer: B) Land on all sides
Lakes are surrounded by land.

7. Correct Answer: B) Still water
Pond water is usually still (not flowing).

8. Correct Answer: B) Man-made
The picture shows a flashlight, traffic light, bulb, stage light, matchstick, and candle all of these are created by humans.

9. Correct Answer: B) Water body
The image shows a flowing river with water, which is a natural water feature.

ONE OR MORE THAN CORRECT OPTION TYPE

10. Correct Answer: A) Deserts
Deserts have very little water because they are very dry regions with very little rainfall.

11. Correct Answer: A)Planets, B) Comets, D) Asteroids
Oceans are a type of water body found on Earth not part of solar system

12. Correct Answer: A) They support life, B) They help in transportation, D) They provide water for farming water bodies do not produce light

13. Correct Answer: A) Caused by Earth's rotation, B) Earth takes about 24 hours to rotate once, D) Different places have day and night at different times: day and night are caused by the Earth spinning on its axis, not by the Moon moving.

ASSERTION AND REASON TYPE

14. Correct Answer: D
the Moon does not produce its own light; instead, it reflects sunlight as it orbits the Earth.

15. Correct Answer: D
day and night occur because the Earth rotates on its axis, not because it revolves around the Sun.

Matching Type Questions

16. Correct Answer: 1-B, 2-A, 3-C, 4-D
mountains are very high landforms, plains are flat and fertile land, a plateau is flat land raised above surroundings, and a desert is a very dry region with little rainfall.

COMPREHENSION TYPE

Passage-I

17. Correct Answer: C) Mountains
The passage clearly says mountains are high and cold.

18. Correct Answer: C) Flat land raised above surroundings
A plateau is described as flat land that is higher than the surrounding area.

19. Correct Answer: C) Forest
Forests are said to have many trees and animals.

Passage-II

20. Correct Answer: B) Because Earth rotates on its axis
As Earth rotates, different parts face the Sun at different times, causing day and night in different places.

21. Correct Answer: B) Half
Only one half of the Earth faces the Sun at any moment, so only that half gets daylight.

22. Correct Answer: D) 24 hours
Earth takes about 24 hours to rotate once on its axis, which creates a full day (day + night).

Previous year questions

1. Correct answer: A) Earth, West, East, Axis, Sun, Orbit
Earth rotates from West to East on its own Axis. Its rotation causes day and night. It also revolves around the Sun on a fixed path called Orbit.

2. Correct answer: C
It is a pattern formed in the sky by a group of stars

3. Correct answer: C) Breakfast
The shadow is long and pointing towards West, meaning the Sun is in the East (morning time).

4. Correct answer: C)
We can get A), B), and D) by pointing torch sideways and from above but we don't get triangle shape.

5. Correct answer: D) Black, Black
No matter the object's colour, shadows are always black (or dark).
